Sir, Whitehall, 6 May 1861.

I AM directed by Secretary Sir George Lewis, to request that, at the next Quarter Sessions of the Peace holden for your county, you will bring under the attention of the county magistrates the expediency of collecting Agricultural Statistics by means of the county constabulary. Agricultural Statistics have been for some time annually obtained in Ireland, through the agency of the constabulary, and this extraneous duty has not been found to interfere with their regular functions.

The points to which Sir George Lewis would especially direct the attention of the magistrates, are—

1. The extent of the information to be collected.
2. Whether any and what remuneration will be requisite for the extra work.
3. Whether the information should be obtained annually, or at periods longer than a year.

With respect to the first of these points, Sir George Lewis is desirous of directing the attention of the magistrates to the accompanying form of Return, which would, in his opinion, supply the most material information which it is desired to collect.

Sir George Lewis requests that the magistrates will cause the result of their deliberations to be communicated to him.

I am, &c.

RESOLUTION of the Court of Quarter Sessions holden at Bedford, 15 October 1861.

"THIS Court having taken into consideration the letter of 6th May last, from Mr. G. C. Clive, to the Chairman of Quarter Sessions, suggesting the expediency of collecting Agricultural Statistics, by means of the county constabulary,—Resolved, that the Court are of opinion that it is expedient to collect Agricultural Statistics, but that the statistics should be obtained through the agency of the several Poor Law Boards in the county."

By the Court.

Clerk of the Peace.

RESOLUTION of the Court of Quarter Sessions holden at Bedford, 31 December 1861.

THE Clerk of the Peace submits the returns of Agricultural Statistics from parishes in the Woburn Union, in the form accompanying the letter of the Secretary of State, submitted at the Quarter Sessions held on 15 October last.

The Clerk of the Peace reads a resolution from the Board of Guardians of the Bedford Union to the effect that the guardians had no objection to a measure for obtaining the acreage only of the various corn crops, and that they recommended such collection to be carried through the medium of the Poor Law Board, and the cost consequent thereon to be defrayed by the Government, and not be chargeable upon the local rates; and added, that if such returns were to be of service the measure should be general.

The Clerk of the Peace reads a letter from the clerk to the Board of Guardians of the Wellingborough Union, of which the following is a copy:

"Dear Sir, "Wellingborough, 25 October 1861.

"I AM desired by the Board of Guardians of this union to inform you that your circular, with the copy Resolution of the Quarter Sessions respecting the Agricultural Statistics, was laid before our Board at last Wednesday's meeting. The Board are disposed to endeavour to obtain the statistics required, provided it is the general wish of the unions in the county of Bedford to obtain like returns from their respective unions, but if it would not be generally adopted, our Board feel that it would be of little use or advantage for them to give themselves any trouble about it, as we have only the small number of nine Bedfordshire parishes in our union. Perhaps therefore you will inform me when you have ascertained the sentiments of the Boards of Guardians of the other unions in the county.

"I am, &c.
"To Theed Wm. Pearse, Esq. (signed) *H. M. Hodson.*"

The Clerk of the Peace also reads letters from the several clerks of the Boards of Guardians of the Ampthill, Leighton Buzzard, St. Neot's, and Hitchin unions respectively, stating reasons why the Boards of Guardians of those unions respectively had declined to obtain the Agricultural Statistics.

Resolved, "That this Court will be glad to facilitate the measure suggested by the Secretary of State as appears by his letter submitted at the Quarter Sessions held on 15 October last, but that the Court is of opinion that to make the measure useful it should be general."

RESOLUTION of the General Quarter Sessions of the Peace holden at Reading on 30 December 1861.

Resolved, "That this Court will readily give its best assistance to Government in any effort which it may make for the purpose of collecting Agricultural Statistics throughout the kingdom; but it is the opinion of this Court that the

responsibility of deciding upon the best means of collecting these statistics properly rests with the Government."

16 December 1861.

Sir,

When I had the pleasure of attending you, in conjunction with the Members for the County of Berks, in relation to the circular of Sir George Lewis on the subject of Agricultural Statistics, you were kind enough to intimate that you would reply, in writing, to the observations which the Court of Quarter Sessions had addressed to you, through me, if I would put them into the shape of a letter to you.

I believe I stated that, at the Michaelmas Sessions, upon a motion "that it was not expedient to collect the Agricultural Statistics by means of the county constabulary;" an amendment was carried, "that the consideration of the subject be postponed to the next sessions, and that the Chairman and the County Members be requested to seek an interview with the Secretary of State on the subject." The question will therefore be considered next sessions, with the aid of such further information with regard to the views of the Government, as you may think it consistent with the public service to render. I should do wrong if I did not in the first instance state that, as far as I can gather the opinions of the justices, the majority are at present opposed to the employment of the county constabulary for this purpose. This arises from an unwillingness to impose upon them duties which are not immediately connected with their functions as peace officers, and from a fear that, by employing them as instruments in procuring the returns, their efficiency might be diminished by rendering them objects of suspicion and dislike to the tenant farmers. Another objection arises from the necessity of providing for their remuneration. This burthen the justices would be unwilling to throw upon the county rate, and its imposition would certainly tend to render the occupiers still less inclined to furnish the information. The sessions are therefore desirous of understanding the exact services which would be required of the constabulary, whether they would be the mere distributors of the Government forms, and the collectors of the returns, or whether they would be expected to see that the papers were properly and accurately filled up. And, connected with this consideration, it became important to know whether, if the Government should think fit to legislate upon the subject, the returns would be made compulsory, so as to subject those occupiers who might neglect or refuse to make them, to a specific penalty, or to indictment for disobedience to the Act.

With regard to one other point in the circular of Sir George Lewis, as to whether the information should be obtained annually, or at periods longer than a year, it is difficult for the sessions to offer an opinion without knowing the precise object the Government have in view. If it is to ascertain the progressive development of agriculture in the country, returns made at intervals longer than a year would probably satisfy the inquiry. If, on the other hand, the object is to calculate the material resources of the country, and the probable amount of produce to be derived from the land, annual returns would be necessary; and, perhaps, I may be excused for adding, that, in my own opinion, an explicit declaration by the Government of their object in requiring these returns, would go some way to diminish the objection which exists to a great extent among the tenant farmers to supply them.

I have now exhausted the topics upon which the Sessions are desirous for information for their guidance in replying to the circular of Sir George Lewis; and I should have only to thank you for the patience with which you listened to what we addressed to you, and the courtesy of your reply, if you had not expressed a willingness to take into consideration any other mode of obtaining the required information, which would be more acceptable to the tenant farmers than the one proposed. Of course the value of such information is in direct proportion to its accuracy; if inaccurate to any considerable extent, it is valueless; and unless the willing participation of the occupiers is obtained, no approximation to accuracy can be arrived at. From inquiries I have made in Berkshire

Berkshire from men very conversant with the class, there is no doubt that a very general objection exists among the tenant farmers to furnish the returns required. They argue that it is an interference with their private affairs; that as the shopkeeper is not required to return the quantities of different goods in his shop, the farmer should not be called upon to state the amount of land he holds, and the mode in which he cultivates it. To meet this objection, it has been suggested by some of the most intelligent of them, that if the return made to Government were of a given locality, say a parish, instead of a return of each man's holding, the objection might be obviated. In every parish there is a tithe map containing the acreage of the cultivated land, and the proportion of arable, pasture, and meadow, at the time of the apportionment. And in almost every parish there is some intelligent man who is in the habit of valuing for parochial assessments, who would have almost within his own knowledge the information required by the Government. If the occupiers of the locality from which the returns are required were permitted to appoint such a person for the district, there is no doubt he would be able to obtain the information in an accurate shape; and if it were necessary to have recourse to returns from individual occupiers, they would not have the same objection to render them to an officer of their own appointment, whose duty it would be to see that they were properly filled up, and who might be made responsible for their accuracy, as they would to furnish them to a superintendent of police, whom it might be inexpedient, as it certainly would be unpopular, to entrust with like powers. Such an officer would have the materials for making an accurate local return, whether parochial, or for a larger district. These might be forwarded to the Justices of the petty sessional divisions, and from them a return for the division, constructed under the control of the Justices. And if these were again rendered to the clerk of the peace, a complete and accurate county return might be made through the Quarter Sessions to the Secretary of State, from the publication of which the farmers themselves would derive all the benefit which such information is calculated to give them in the conduct of their business.

I ought, perhaps, to apologize for intruding upon you suggestions which may appear to you very crude, for which the gentlemen who accompanied me are in no way responsible. I can only add, that they are thrown out for your consideration in consequence of what passed at our interview, and that it is not necessary for you to express any opinion upon their practicability.

I have, &c.

To the Right Honourable the Secretary of State. (signed) *T. Bros.*

Sir, Whitehall, 21 December 1861.

I am directed by Secretary Sir George Grey to acknowledge the receipt of your letter of 16th instant, referring to the interview which he had with you, in conjunction with the Members for the county of Berks, in relation to the circular from this office, of 6th May last, on the subject of Agricultural Statistics.

In reply to the questions on which you desire further information, I am to state that it was not contemplated that, if the police were to be employed in collecting Agricultural Statistics, they should do more than distribute the forms, and collect the return, without being responsible for their being accurately filled up. No decision has yet been formed as to the necessity of making the returns compulsory; this would probably depend on experience of any plan to be adopted for their collection. If any extra expense should be incurred by the employment of the police in this duty, Sir George Grey thinks it might be defrayed without any additional charge on the county rate.

The object of obtaining the information would be fully attained by returns for parishes or districts, instead of for each occupier's holding.

Sir George Grey desires me to thank you for the suggestion you have been good enough to make as to the best means of obtaining the information desired.

Resolution of the General Session of the Peace, holden at Aylesbury, 14 October 1861.

Agricultural Statistics.

The circular letter from the Secretary of State, dated 6 May 1861, addressed to the Chairman of the Quarter Sessions for this county, requesting him to call the attention of the magistrates to the expediency of collecting certain information as regards Agricultural Statistics, was presented to this Court, and read.

On the motion of the Reverend Geo. Phillimore, seconded by William Lowndes, Esq.,

Resolved (upon a division of the Court by a majority of 14 to 11),

"That it is the opinion of this Court that it is not expedient that Agricultural Statistics should be collected through the medium of the county police."

On the motion of George Grenville Pigott, Esq., seconded by George Carrington, Esq.,

Resolved (upon a division of the Court by a majority of 20 to 1),

"That it is the opinion of this Court that it is expedient that Agricultural Statistics, to the extent shown in the Schedule annexed to the letter of the Under Secretary of State of 6 May 1861, should be collected."

Resolved,

"That it is the opinion of this Court that this information should be obtained annually."

Resolution of the General Quarter Sessions of the Peace, holden at March on 13 August 1861.

A circular letter from the Secretary of State of the Home Department, on the subject of obtaining Agricultural Statistics, through the medium of the constabulary force, having been read and taken into consideration by this Court,

Resolved,

"That, in the opinion of this Court, it is not expedient to make use of the services of the constabulary force for that purpose."

At the General Quarter Sessions of the Peace, holden at the Castle of Chester on 1 July 1861.

The Chairman having laid before the Court a letter from Secretary Sir G. C. Lewis, containing various inquiries on the expediency of employing the county constabulary in the collection of Agricultural Statistics, the magistrates are of opinion that the constabulary might be employed to the extent of leaving forms with the persons by whom they may be required to be filled up, and afterwards collecting such forms. The magistrates, however, consider that the constabulary should not be employed in ascertaining the correctness of such returns, as such duty would interfere with their regular functions, and may tend to make them unpopular in the rural districts.

The magistrates consider,—

First, that the form enclosed in Sir G. Lewis's letter will elicit all the information which it would be desirable to obtain, and that such forms should be supplied by the Government to the police;

Secondly, that the constabulary should be remunerated by the Government for the extra work which will be imposed on them of delivering and collecting the returns at the usual rate of special duty allowance in force in the county;

Thirdly, that information should be obtained annually.

EXTRACT from Letter of Chairman of the Quarter Sessions to Mr. *Waddington,* dated 19 July 1861.

"The question of the expediency of collecting Agricultural Statistics was submitted to the Court of Quarter Sessions, and that they passed a resolution to the effect that it would be expedient to collect Agricultural Statistics by means of the rural police; that the form of return suggested by Sir G. GLOUCESTERSHIRE.

Stancombe Park, near Dursley,
Sir, 3 August 1861.

I HAVE the honour of forwarding to you a resolution passed at the Trinity Court of Quarter Sessions for this county, held at Gloucester, on 2 July ult., of which I was Chairman, in reference to the circular papers received from the

Home Office, respecting the obtaining of Agricultural Statistics from this county, addressed to the Chairman and Magistrates of the Court.

I also transmit a communication to the Home Secretary upon the same subject, signed by all the magistrates of this county, as landowners, who were, at the time of its proposal, assembled in Court.

It will be, perhaps, right for me to explain, that the magistrates of this county devote Tuesday, the first day of their sitting, in each Quarter Sessions, to fulfilling the financial duties imposed on them by Acts of Parliament; of determining the amount, and directing the levy of the county rate; and of ordering the payment of all legal claims on the funds thus raised; of considering the reports respecting all the county establishments placed by Act of Parliament under their control, and making the orders requisite for their continued efficient maintenance and management.

The Chairmen have, during my remembrance of above 40 years, strictly confined the discussions of the Court to such matters, lest the Court should lose its distinctive legal character, and become to some extent a mere meeting of county gentlemen, for the discussion of county matters, who, in such case, should, in fairness, afford the same opportunity for discussion to the rest of their class not being magistrates. For this reason alone, the Court, at my suggestion, confined itself to the resolution adopted.

In sending the printed form of queries to be filled, I would submit, for your consideration, the propriety of impressing on those making the returns, that, after they have sealed the same, they will only be subject to inspection at head-quarters; and that though the signed returns will be filed, only the statistics in them, and not the signatures, will be made public; and those in such a form as not to be applicable to individual occupiers.

All tenants of land are bound by lease or custom to some special course of husbandry. Supposing that these returns could be examined before they reached head-quarters, it would be found, if they were correct, that on many estates the greatest liberties had been taken by the tenants, in departing from their prescribed courses of culture. Hence the fear of the farmers, and one cause of their strong dislike to fill up these papers. The collecting constables might be furnished by the county with sealing wax, and an official seal, which, used in the presence of the tenant, would tend greatly to satisfy his doubts as to secrecy. These returns would, of course, have reference to the acreage sown for cereal crops, and not to the amount harvested. True returns of the latter could not be expected.

I have, &c.

County Chairman of Gloucestershire.

To the Right Hon. Sir G. Grey, Bart.

Gloucester Trinity Sessions, 1861.

Copy of Minute of Motion made, and Resolution passed, by the Trinity Court of Quarter Sessions, held in Gloucester, 2 July 1861.

A letter addressed to the County Chairman from Secretary Sir George Lewis, dated 6 May last, was read to the Court, requesting him to call the attention of the magistrates of this county, at the next Quarter Sessions of the Peace, to the following queries on the subject of obtaining Agricultural Statistics from the occupiers of land in this county, through the agency of the police:

1. As to what should be the extent of the statistical information on agriculture to be collected.

2. Whether the rural police of the county could be employed in collecting such information; and if so, whether any and what remuneration will be requisite for their services.

3. Whether the information should be obtained annually, or at periods longer than a year.

Respecting

Respecting the first of these queries, Sir G. Lewis adds, that he is desirous of directing the attention of the magistrates to a form of return accompanying his letter, which would, in his opinion, supply the most material information which it is desired to collect.

Referring to the first of these queries, the county chairman proposed that the extent of the information to be collected should be left to the Home Secretary for detail, in such printed forms as he should desire to be circulated among the occupiers of land throughout the county.

Referring to the queries Nos. 2 and 3, the Chairman proposed to the Court that the services of the police should be offered gratuitously to the Home Secretary, first, to deliver whatever printed forms he might think fit to furnish to the chief constable of the police force, to be delivered by the police constables to all the occupiers of land in the county of not less than one acre, at such season of the year as the Home Secretary may fix upon, and also to collect and receive the same subsequently, whether filled or unfilled, at such other time as he shall appoint, to be returned to the chief constable, who shall immediately transmit them to the Home Office.

Considerable discussion ensued: first, as to deferring to another Quarter Sessions the consideration of this letter; next, as to advising with Sir G. Lewis as to the extent of the information to be collected, and as to intimating to him their approval, as a Court, of the Government measure.

The Chairman objecting to the magistrates thus entering upon subjects not appertaining to their duties, as members of a Court of Quarter Sessions, his proposal was unanimously adopted; but a separate declaration emanating from magistrates individually as landholders, and not as a resolution of the Court, was afterwards drawn up on the proposal of Sir George Jenkinson, Bart., and seconded by John Curtis Hayward, Esq., acquainting Sir G. Lewis of their approval of the steps thus taken by Government, and expressing a hope that the farmers of this county would give their assistance in supplying the information thus desired. This was signed by the proposer and seconder, the Chairman, and every magistrate then remaining in Court; and the Chairman was requested to transmit the same, along with the resolution of the Court, to Secretary Sir G. Lewis.

(signed) *Purnell B. Purnell*, Chairman.

That the undersigned members of the Court of Quarter Sessions assembled this day at Gloucester, wish to express their sense of the extreme importance of the subject to which the letter from Sir G. Lewis alludes, and the satisfaction they feel at the attention of the Government having become directed to a matter which must result in the advancement of agriculture, and therefore be ultimately beneficial to the farmer. They therefore cordially consent to aid this movement by all means in their power; and they further venture to express a hope that the farmers of this county will see the matter in the same light, and give their assistance to the best means of supplying the information sought.

[Here follow the signatures.]

HEREFORDSHIRE.

Sir, Gaines, Worcester, 5 July 1861.

IN compliance with your request, I have consulted my brother magistrates as to the expediency of collecting Agricultural Statistics through the medium of our county constabulary.

Although there is an absurd disinclination on the part of agricultural occupiers to furnish information of such matters, we consider the constabulary force would afford the most probable medium through which to arrive at a truthful result, and think—

1. The form of return enclosed in your circular is well adapted for the purpose.

2. If any remuneration is considered requisite, it might certainly be of a trifling amount; but we are unwilling to specify that amount until we are more fully cognizant of the extra work which will be required.

3. We beg to suggest that a triennial return would be sufficient, or even once in four years, because the four-course system of cropping is now so generally adopted by agriculturists, that two returns within that period would probably present the same number of statute acres under their rotation crops.

Any further communication on this subject shall receive the due consideration of the county magistrates.

THE letter from the Secretary of State relative to the collection of Agricultural Statistics was laid before the Court at the last Midsummer Sessions for the county of Hertford, and the consideration upon it adjourned until the Michaelmas Session following, at which latter time the same was brought forward and discussed, and the further consideration of it was ordered to be adjourned *sine die*.

COPY Resolution of the General Quarter Sessions as to the Expediency of Collecting Agricultural Statistics.

At this Court a letter from the Secretary of State was read as to Agricultural Statistics, and recommending the employment of the police in obtaining the same.

Resolved,

" That this Court is of opinion that it is not desirable to employ the services of the police of this county in such a duty."

KENT.

AT the Annual General Session holden at Maidstone, &c., 27 June 1861.

Read a letter from the Secretary of State for the Home Department, addressed to the Chairman of the Quarter Sessions, suggesting the expediency of collecting Agricultural Statistics by means of the county constabulary.

Resolved,

" That inasmuch as the Court has been advised by counsel with reference to the suggestion of appointing county police constables to the office of inspectors of weights and measures that those offices are incompatible, and that if appointed they would not be remunerated for those services out of the general county rate, this Court is of opinion that the same legal objections are applicable to the employment of the county police constables for the purpose of collecting Agricultural Statistics, and the Clerk of the Peace is directed to communicate the purport of this Minute to the Secretary of State."

Sir, Whitehall, 7 August 1861.

I AM directed by Secretary Sir George Grey to acknowledge the receipt of your letter of the 26th ult., forwarding a copy of a resolution passed at the late General Sessions for the county of Kent, on the subject of the proposed collection of Agricultural Statistics in England, and I am to request that you will be so good as to furnish Sir George Grey with a copy of the legal opinion to which reference is made in the resolution of the Court of Quarter Sessions.

"Having reference to 10 Sec. of 2 & 3 Vic. c. 93, I think county police constables, if appointed inspectors of weights and measures, could not be remunerated for their services out of the general county rate, but could be paid as constables only out of the police rate. Further, I think, with reference to the general legislation on the offices of inspectors of weights and measures and of county police constables, that the duties of the offices are not compatible, and that the county police constables cannot legally be appointed inspectors of weights and measures. The incompatibility is not so free from doubt as the former point—viz., the question of payment; but on the whole I have arrived at the conclusion that the offices are incompatible.

LANCASHIRE.

RESOLUTION of the Annual General Session of the Peace, holden by Adjournment at Preston on 12 September 1861.

Resolved,

That in answer to the communication from the Home Secretary, bearing date 6th May last, this Court is of opinion that an annual collection of Agricultural Statistics is expedient.

That no such collection can, in our opinion, be satisfactorily made, except under a system of compulsory returns, for which the sanction of an Act of Parliament would be required.

That in the absence of such a system, the employment of the police to collect returns, which would be merely optional, seems to us unadvisable.

AT a General Quarter Sessions of the Peace, held at Spalding, 11 July 1861.

The Clerk of the Peace laid before the Court a letter from the Secretary of State for the Home Department as to the expediency of collecting Agricultural Statistics by means of the county constabulary, and the Court, having considered the same, ordered that the clerk of the peace inform the Secretary of State that this Court considers it desirable that the returns asked for should be annually obtained in July, and in the form suggested; and this Court having consulted with the chief constable, as to the expediency of employing the police for the purpose of obtaining the requisite information, and he having stated that it would not, in his judgment, interfere with their ordinary duty, it is the opinion of the Court that the police may be employed for the purpose, and that a small remuneration should be allowed them for this extra service.

PARTS OF KESTEVEN.

AT the General Quarter Sessions of the Peace, held at Bourn on 1 July 1861.

The circular of the Right Honourable the Secretary of State, dated 6 May 1861, with its enclosure, upon the subject of Agricultural Statistics having been submitted to the Court, and duly considered,

It was resolved and ordered that the following return be made to the Secretary of State as the result of the deliberations of the magistrates, viz. :

1. That it would be practicable within the parts of Kesteven, in the county of Lincoln, to obtain, by means of the county constabulary, Agricultural Statistics, in the form of the printed return submitted by the Secretary of State.

2. That such statistics should be obtained annually.

3. That no further remuneration to the county constabulary will be requisite than payment for stationery and printing, and for clerks' assistance in transcribing the returns.

I HAVE the honour to request, for the information of Her Majesty's Secretary of State, that the justices of the Liberty of Peterborough having had under their consideration the circular having relation to the collection of Agricultural Statistics, through the agency of the constabulary, were of opinion that the success of the measure depended so greatly upon the cordial co-operation of the farmers that it would be advisable to suspend any suggestion of the bench until the ensuing Quarter Sessions in October, in order to sound the occupiers of the district as to their reception of such a scheme, or any modification of it, which, without defeating its purpose, might render it more acceptable to themselves.

The letter from Her Majesty's Secretary of State for the Home Department, dated 6 May 1861, suggesting the expediency of collecting certain information with respect to Agricultural Statistics, by means of the county constabulary, having been printed, and a copy sent to each justice, with a notification that the same would be considered at these sessions, and the same having at these sessions been fully considered, it was resolved, upon the motion of Richard Burdon Sanderson, the younger, Esq., and seconded by Thomas Anderson, Esq., and carried unanimously, that the justices of Northumberland, though they do not think that there will be any great practical utility in such statistics as are proposed, do not object to the employment of the county police in the manner proposed by the Secretary of State, provided, first, that sufficient time (not less than three months), commencing 1st July in each year, be given for taking in the returns. That the county be indemnified by the Government for all extra expense that the county is put to in obtaining this information, and that the Government provide four full copies of the maps of the Ordnance Survey, for the use of the constables in taking in such returns; and, in conclusion, the justices beg to urge upon the Government the very great importance, for this and other purposes, of expediting the completion of the survey of Northumberland.

RUTLAND.

Sir, Oakham, Rutland, Michaelmas Sessions.

THE magistrates at these Sessions have had your letter of 6 May before them relative to collecting Agricultural Statistics. It appears to them that the utmost extent of information which could be obtained, through the agency of the county constabulary, with anything approaching truth, is precisely what is embraced in the form drawn up by the Secretary of State, viz. acreage of respective cropping; and that to attempt anything beyond that, whether amount of produce, enumeration of live stock, &c., would only result in deceptive speculation, be quite fallacious, and therefore mischievous.

They think that so far the plain duty of distributing, explaining, and collecting these returns might be easily done by the ordinary police constables, each in the parishes of his own walk, without any prejudice or interference with their ordinary duties. Nor do they see that any special remuneration to them for that would be at all necessary. The returns, however, would be very numerous, would require classifying and putting together by some one—a superintendent or other competent to that—with accuracy; and this duty would be rather heavy in labour, time, and stationery, and could scarcely be imposed, they think, without some remuneration.

They see no object in annual inquiries to this effect, the variation would be so very insignificant. No repetition within less than 10 years at least, unless some very unforeseen change of practice arises, can be wanted.

This limited information could not be returned with perfect accuracy, from mixture of cropping, and uncertain and reputed measurements; but perhaps near enough. They should have a reasonable time, three weeks or so; and at one particular time of the year, at or about harvest, when the cropping of all arable land is defined. Reference must be had by them to the rates, and explanation from the officers. It is manifest, therefore, that as the willing co-operation of these, as well as of occupiers, would be necessary, the popularity and general approval of the step must be counted upon for facility and success in carrying it out; for the magistrates are strongly of opinion that it would be very

very unadvisable that the rural police should be employed in investigating this subject by any closer means, or other than such as is above supposed.

As far as they are able to judge of this, the magistrates do not feel that it would be expedient to employ the county constabulary, nor for such an object to commit them in an investigation which might turn out very unacceptable, and might interrupt the good feeling and confidence with which they certainly are now appreciated by farmers and occupiers, and which materially contributes to their usefulness and efficiency.

SALOP.

Sir, Loton Park, Shrewsbury, 29 October 1861.

THE circular of Sir George Lewis respecting the collection of Agricultural Statistics was laid before the magistrates at the last Court of Quarter Sessions for the county of Salop. I was requested by the Court to inform you that the justices were willing to permit the county police to distribute the forms at the residencies of the different occupiers, and to call for them afterwards, and also to transmit them to some office to be arranged. For performing this duty the Court did not consider any payment need be demanded, except for cost out of pocket, should any such occur.

How far the farmers might be induced to fill up the forms, the magistrates did not wish to express any opinion.

Sir, Glastonbury, 28 May 1861.

I HAVE the honour to acknowledge the receipt of your communication of 11th instant, enclosing a circular, together with a form from Sir George Lewis on Agricultural Statistics, and requesting that I would report to you on the subject.

I have now to inform you that, having attentively considered the matter, and from the many years' experience I had of the manner in which these returns are collected and prepared by the constabulary in Ireland, I have no hesitation in stating that this duty can be efficiently performed by the force in this county,

with very little additional labour, and will not materially interfere with their police duties.

As regards the first point in the circular, namely, the extent of the information to be collected, I am of opinion that the form prepared by the Home Office will embrace all that is essential, so far as tillage is concerned.

With reference to the proposed remuneration to be given to the members of the force, if employed as enumerators, I would recommend that they should get the same extra pay as they receive from the county when engaged on special duty, namely:

	s.	*d.*	
Superintendents - - - - - -	3	–	per diem.
Sergeants - - - - - - -	1	6	„
Constables - - - - - - -	1	–	„

As I presume the object of these returns is to ascertain the resources of the country proceeding from agriculture, I therefore think that, to render them effective, they should be prepared annually.

STAFFORDSHIRE.

Dear Sir George Lewis, Shugborough, 8 July 1861.

YOUR circular, requesting information as to the collection of Agricultural Statistics, reached me too late to admit of the subject being ventilated before the Sessions; under these circumstances, I felt that a discussion upon the merits of the question could not lead to any satisfactory conclusion. I therefore confined the question before the Court as much as possible to the expediency of employing the police to collect the required information. I referred your letter to the Police Committee, and attended their meeting to consider it. We inserted in our report to the Quarter Sessions a recommendation to them to sanction the employment of the police for the purpose, upon the condition that the returns should not be required more than once in the year, and that the duties should be confined to distributing blank forms, and collecting them when filled up. This part of the report of the Police Committee was adopted, upon a division, by a majority of 18 to 12: the discussion which arose upon it satisfied me that no practical conclusion could have been arrived at upon the merits of the question. I have directed a copy of the order of Court to be forwarded to you officially.

I will endeavour to ascertain the feelings of the farmers in the county upon the subject, and will communicate to you the result of my inquiries.

Very truly, &c.

The Chairman of the General Quarter Sessions of the Peace holden at Horsham for the western division of this county on 4th instant, having called the attention of the county magistrates to your letter to him of 6th May last, on the expediency of collecting Agricultural Statistics by means of the county constabulary, and the justices there assembled having duly considered the subject, directed me to inform you that they agree unanimously that it would be

be inexpedient to employ the police in collecting Agricultural Statistics, and that they think it would tend to impair the efficiency of the police, considering that much of its usefulness depends on its duties being confined to the purposes for which it was originally instituted.

WARWICKSHIRE.

Sherington, Shipston-on-Stour,
16 July 1861.

Sir,

I HAVE the honour to enclose, for the consideration of Secretary Sir G. C. Lewis, the result of the deliberations of the magistrates of the county of Warwick, at their recent Quarter Sessions, on the subject of collecting Agricultural Statistics, and the points connected therewith, submitted in your circular letter of 16th May last, addressed to the Chairman of Quarter Sessions.

Sir George Lewis will perceive from the enclosed resolutions, that, in the opinion of the magistrates of Warwickshire, however it may answer in Ireland, the constabulary is not an eligible agency for this purpose in England; the character of the occupiers of land in the two countries is essentially different, and the relative position of the constabulary is not the same. Supposing, however, the county constabulary to be employed, the magistrates (after consultation with the chief constable) would suggest that if the county constables are employed merely to leave the return papers at the several houses of the occupiers of land in their respective beats, and to collect them again when filled up by the occupier, the constables might do thus much without any remuneration; but if more than this should be required of them, some remuneration for the extra trouble and duty would be necessary. In the opinion, however, of the magistrates of Warwickshire, the employment of the county constabulary in any way for this purpose is objectionable on many grounds; and they have proposed by their resolution that the overseers of the poor of the respective parishes are the best channel for obtaining the desired information. The overseers, having the custody of the rate books, and being called upon to make the rates, have the means of knowing, better than any other officer can know, how many occupiers of land there are in each parish; and having comparatively little to do under the present administration of the poor law, they might very well be called upon to circulate the return papers, and obtain the returns in their respective parishes without remuneration.

The magistrates have further resolved that the information to be returned under the several heads embraced in the Schedule accompanying your circular letter will be sufficient; but that if a return of live stock could be added, it would be still more satisfactory.

With respect to the last point proposed for consideration by Sir G. Lewis, namely, the periods at which these returns should be procured, the magistrates, after discussion, have come to the conclusion that once in every five years would be sufficient for statistical purposes. The census is taken every ten years, and these returns, if procured every five years, would be supplemental to the census. The magistrates are of opinion that Agricultural Statistics are likely to be more complete and *bonâ fide*, if collected at intervals, than if collected annually; that occupiers of land would learn to regard them as of a purely statistical, and in no way of a personal and inquisitorial character.

I am desired, on behalf of the magistrates, to thank the Government for taking up the subject.

I have, &c.

Agricultural Statistics.

THE Court having considered and discussed a circular letter from Secretary Sir G. C. Lewis upon the expediency of collecting Agricultural Statistics, through the agency of the county constabulary, as is done annually in Ireland, together with the three following points submitted by the letter, viz.:—

1. The extent of the information to be collected:

2. Whether any or what remuneration will be required for the extra work:

3. Whether the information should be obtained annually or at periods longer than a year:

have come to the following resolutions:—

First.—That the county constabulary is not a desirable channel through which the required information may be best obtained in England, and that in the opinion of the magistrates of the county of Warwick, it would be better to obtain it through the overseers of the poor of the respective townships, hamlets, and parishes, without any remuneration.

Second.—That with respect to the extent of the information to be collected, the heads of inquiry contained in the schedule which accompanies Sir George Lewis's letter, appear to be sufficiently comprehensive as far as they go, but that they would be more complete and satisfactory if a return of live stock were also included.

Third.—That it would be sufficient if the returns could be obtained once in every five years.

Ordered, That the Chairman be requested to communicate the foregoing resolutions to Sir G. Lewis in reply to his letter.

Clerk of the Peace.

To the Right Hon.
The Secretary of State for the
Home Department.

WILTS.

At the General Quarter Sessions of the Peace, held at Warminster, 2d July 1861.

It is *Ordered,*

THAT the Clerk of the Peace be directed to write to Secretary Sir George Lewis, that, in taking into consideration his letter respecting the collecting of Agricultural Statistics by means of the constabulary, the Court came to the following resolution:—

That the duties of the police force in this county having been defined in the first institution of that force, this Court would not recommend the imposition of any further duties on that body. That the inquiry suggested by the

Secretary

Secretary of State would, in the opinion of this Court, place the police force in an inquisitorial position, the unpopularity of which would much impair their usefulness.

By the Court,

(signed) *Jno. Swayne*,
Clerk of the Peace.

WORCESTERSHIRE.

Clerk of the Peace's Office, Shirehall, Worcester,

THE Clerk of the Peace has the honour to inform the Secretary of State, in reply to his circular of 29th instant, that no opinion was expressed by the Court of Quarter Sessions upon the subject therein referred to.

YORKSHIRE, NORTH RIDING.

Thornton-le-Street, near Thirsk,
Sir, 6 July 1861.

REGARDING Agricultural Statistics and your circular letter dated 7th May last, I have the honour to inform you that the Police Committee saw no difficulties in the way towards employing the police to collect these statistics, but, in order to give notice to all the justices, the Court of Quarter Session of the North Riding of Yorkshire has deferred the consideration of this subject until the next Court.

May I venture to observe, that all who have never considered the question of Agricultural Statistics seek for an official reply, and nothing short of an official reply will satisfy them, to this question, "What are these statistics wanted for?"

I have, &c.
To the Right Hon. (signed) *Cathcart*,
The Secretary of State for the Chairman of Quarter Sessions,
Home Department. North Riding of Yorkshire.

REPORT of the Police Committee.

North Riding, Yorkshire, 2 July 1861.

THE attention of the Court is called to the subject of Agricultural Statistics. In a letter, dated 7th May last, the Secretary of State for the Home Department requests that the general question of the expediency of collecting these statistics by means of the constabulary may be brought under the consideration of the Court. He informs us that the Irish constabulary have for several years annually collected Agricultural Statistics, and that without any interference with their ordinary duties. The Highland and Agricultural Society of Scotland, it is well known, collected the Agricultural Statistics of that country in the most perfect form, by means of the volunteer agency of the farmers themselves. In the United States of America Agricultural Statistics are collected with minuteness, and it was observed at the Statistical Congress of 1855, that the only great States of Europe that neglected this important branch of the national "stock taking," were Spain, Turkey, and England. In addition to the general question of expediency, the Secretary of State asks the Court for an expression of opinion on three points: 1. The extent of information to be collected. The Secretary of State encloses a form of return which, when filled up, would, in his opinion, supply the most material information that it is desired to collect. He contemplates the return by each occupier of the acreage of several specified crops grown on his occupation. But with regard to live stock there is no inquiry at all. 2. As to remuneration. If the police are employed, they should receive the usual extra pay for extra duty, calculated according to the ordinary special duty scale. The charge to the Government under this head would not be considerable; say, for the whole

Riding, from 100 *l.* to 200 *l.* The collection of statistics would not clash with the ordinary duties of the force, but rather tend to efficiency by improving local knowledge, and sharpening intelligence. The last point for our consideration is, Should the collection be annual or at larger periods? The following facts stated in the House of Commons in 1857, have a suggestive bearing on this question. During the four years 1853-4-5-6, corn rose in value 78 per cent. During these years in Ireland the average of wheat increased by 62 per cent., and in Scotland 56 per cent., showing how closely supply follows demand, and hence would appear the desirability of an annual collection.

My Lord, Whitehall, 7 August 1861.

I am directed by Secretary Sir George Grey to acknowledge the receipt of your letter of 7th ultimo, relative to the proposed collection of Agricultural Statistics; and in reply to the inquiry, "What are these statistics wanted for?" I am to state that they are wanted in order to remedy a defect of which complaint has been often made in the statistical information as to the condition and resources of the country, there being ample statistical information as to trade and commerce, but none as to the agriculture of England.

To the Earl Cathcart,
Chairman of Quarter Sessions,
Yorkshire, North Riding.

Sir, Thornton-le-Street, Thirsk, 16 October 1861.

In reply to your circular of 6th May relating to the expediency of collecting Agricultural Statistics by means of the county constabulary, I have the honour to enclose a copy of a resolution of the justices of the North Riding of Yorkshire assembled in Quarter Sessions on 15th instant.

I remain, &c.

Northallerton, 11 October 1861.

It was Resolved, That this Court, while fully recognising the value of Agricultural Statistics, cannot at the present moment recommend that the police of the Riding be employed for their collection.

By the Court,

Clerk of the Peace.

YORKSHIRE, EAST RIDING.

At the General Quarter Sessions of the Peace held in Beverley, 2d July 1861, the following order was made:—

Be it remembered, that a letter from the Secretary of State for the Home Department relative to procuring Agricultural Statistics was read.

Whereupon it is ordered that the Secretary of State be informed that in the opinion of this Court it is not expedient to employ the constabulary of the Riding for any of the purposes named in the Secretary of State's letter.

By the Court,
(signed) *Wm. F. Clark*,
Deputy Clerk of the Peace for the said Riding.

York, West Riding.

Clerk of the Peace's Office, Wakefield,
Sir, 1 February 1862.

I am directed to inform you, in reply to your letter of the 29th ultimo, that the subject of Agricultural Statistics has not yet been taken into consideration by the magistrates of the West Riding, but that they propose to do so at the General Quarter Sessions for the Riding, which will be held at Pontefract on 7th April next.

I am, &c.

Anglesey, Trinity Sessions, 1861.

In compliance with the request of Sir G. C. Lewis, conveyed by Mr. Clive's letter of 6th May, the justices took into their consideration the expediency of collecting Agricultural Statistics by means of the county constabulary. It is stated by Mr. Clive that such statistics have been for some time annually obtained in Ireland through the agency of the constabulary, not by authority of Parliament, but under the direction of the Registrar General for Ireland.

Resolved,

That it would be inexpedient to require from the county constabulary the performance of any other duties than those imposed on them by law.

That it would be improper to allow them to act under the authority or direction of any other persons than those set over them by law.

That to institute an inquiry into the particulars set forth in the proposed form would be in effect to inquire into the value of the property, and into the circumstances and incomes of the persons who are the subjects of it, and would be regarded by them as an inquiry into the extent of their liability to property tax.

That, as such, it could not fail to arouse the jealousy of the occupiers of land, and to make the constabulary the objects of their suspicion and hatred.

That the efficiency of the constabulary depends on their possessing the confidence of the population at large, and that any step tending to impair that confidence would be in the highest degree inexpedient.

Breconshire.

Sir, Penpont, 4 July 1861.

In reply to a letter addressed to me at the request of Sir G. Lewis with regard to the Agricultural Statistics of the county of Brecon, I write to inform you that I submitted your letter to the magistrates of the county at the Quarter Sessions which were held on second ultimo, when the feasibility of collecting information on those matters was fully discussed.

It appears that the constabulary might be employed in obtaining the required information, but fears were entertained that much inaccuracy would exist in the information so acquired.

The only expense likely to be incurred would be that of obtaining printed forms which the police would deliver, and afterwards collect in their several districts.

It is our opinion that the inquiry should be made once in every year, as the cultivation of land is continually varying in character.

Should the Government think proper to supply the required forms to be filled up by the occupiers of land, every effort will be made on the part of the landowners to assist the Government in obtaining as accurate a return as possible.

Should it be eventually determined to adopt this measure, I will instruct the clerk of the peace to inquire what number of forms will be required, and I will report to you the result of his inquiries.

I have, &c.

Chairman of General Session for the County of Brecon.

CARDIGANSHIRE.

Midsummer Quarter Sessions, 1861.

A COMMUNICATION from Her Majesty's Principal Secretary of State, addressed to the chairman of this Court, requesting him to bring under the attention of the magistrates assembled at these sessions the expediency of collecting Agricultural Statistics by means of the county constabulary, and directing attention to certain points, and requesting to be informed the result of the magistrates' deliberations thereon being laid before the Court, and having been duly considered, it is ordered that Her Majesty's Principal Secretary of State be informed that no objection exists to the county constabulary being employed in collecting Agricultural Statistics, provided Her Majesty's Government do provide the necessary forms and papers, and remunerate the said constabulary at the rate of 2*s.* 6*d.* per man per day for every day in which they shall be engaged, and the Court is of opinion that such statistics should be collected annually.

By the Court,

CARMARTHENSHIRE.

Clerk of the Peace's Office, Llandovery,
Sir, 8 July 1861.

I AM directed by the magistrates of the county of Carmarthen to acknowledge your communication of 6th May, addressed to the Chairman on the subject of collecting Agricultural Statistics through the means of the county constabulary, and to state that upon the subject being taken into consideration at the General Quarter Sessions, held on 4th instant, it was resolved, after consulting the chief constable, that it should be attempted to obtain the information required, for one year, as a trial, without any remuneration being made, provided the Government would supply the necessary forms.

The Court was also of opinion, that in addition to the heads of information sought by the printed form sent, it might be useful to obtain the quantity of live stock on each farm.

And with regard to the period when the return should be obtained, the Court was of opinion that it should be annual.

I have, &c.

CARNARVONSHIRE.

Sir, Carnarvon, 31 January 1862.

IN reply to your letter of 29th instant, I beg to inform you that the letter from the Secretary of State, dated 6th May 1861, relative to the collection of Agricultural Statistics by the county constabulary, was laid before the justices at the Trinity Quarter Sessions, 1861, but no decision was come to respecting it.

I am, &c.

To the Right Hon. the Secretary of State, Clerk of the Peace
Home Department. for the County of Carnarvon.

Denbighshire.

Sir, Ystrad, Denbigh, 8 July 1861.

I laid before the justices at the Quarter Sessions for this county, held in the last week, your letter of 6th May, on the subject of collecting Agricultural Statistics by means of the county constabulary.

It was the opinion of our Bench that it would be desirable to obtain the information annually, in the form of the Schedule enclosed in your letter, and we think the duty might well be performed by the police constables.

The Government will, I presume, furnish us with a sufficient number of the printed forms of the returns, or authorise me to have them printed, and I think some small remuneration to the men for the extra trouble would induce them to be more active as well as more accurate in obtaining correct information, for in a large portion of the Welch-speaking district of this county they would have to fill up the returns themselves.

When this duty was done a few years ago, it was by means of the relieving officers of the union.

Probably there would be no objection to remunerate the police constables somewhere to the same extent or thereabouts.

I have, &c.

Chairman.

To the Right Hon.
Sir G. C. Lewis, Bart., M.P.

Flintshire.

At the adjourned Court of General Quarter Sessions holden at Mold on 3 July 1861.

The Chairman submitted to the Court a circular dated 6th May last, addressed to him by Mr. Clive, of the Home Office, on the subject of the expediency of collecting Agricultural Statistics by means of the county constabulary. Ordered, that the Secretary for the Home Department be informed, that in the opinion of this Court it is not desirable that the police constables of this county should be employed to collect these Statistics; that their interference would probably be misconstrued by the tenant farmers, and that this Court considers returns of this description can be much better obtained, either through the assistant overseers of parishes, or by officers specially appointed by the Government for the purpose; but that if the Government will take the responsibility of the step, this Court will do all in its power to assist in carrying out their wishes.

Glamorganshire.

Sir, Cardiff, 20 July 1861.

I am directed by the Justices in Quarter Sessions, in reply to your circular inquiring whether the Agricultural Statistics of the county could be obtained by the police constables, to state that the justices see no objection to the required returns being obtained by the assistance of the police, as far as may be practicable.

If the requisite forms, with instructions, be sent me, they shall be duly attended to.

I have, &c.

Clerk of the Peace for the County of Glamorgan.

To the Right Hon.

MERIONETHSHIRE.

Sir, County Hall, Bala, North Wales, 2 July 1861.

I HAVE the honour of informing you that the circular with reference to the employment of the police force of this county in obtaining Agricultural Statistics, was to-day considered by the magistrates assembled in Quarter Sessions at Bala.

The matter was fully discussed, and the following is the unanimous opinion of the Bench of this county:—

That such employment of the police force, if it could be effected without serious additional expense and without detriment to the public service, would be an advantageous alteration. That in populous districts, with a tolerably concentrated population, and a numerous police force, the measure might be introduced with success. That in this county the inhabitants are thinly scattered, the police force only 18 in number, many of the stations distant more than 9 miles from each other, and that the increased duties proposed to be thrown on the police force, by their employment in the collection of Agricultural Statistics, would be a very great detriment to the efficiency of the force. That the additional expense thus occasioned would be great, and that this county, already heavily burthened with rates, would be unprepared to meet it. That even if the police were thus employed, their returns could not be relied upon, for the farms and mountain holdings are so scattered, that it would be almost impossible that any large portion of them could be effectually visited by the police, while the tenant farmers would have an antipathy to affording information to Government on matters which they would consider as peculiarly private. That, considering the large districts of mountain occupied as sheep farms, very few farmers know their actual acreage, and that the returns of cultivated land proposed would bear no proportion to the actual value or produce of the soil. That under all these circumstances the magistrates of Merionethshire are unanimously of opinion that the employment of the police of their county in obtaining Agricultural Statistics would be an inexpedient measure, causing expense, destroying the efficiency of the police force, and producing results wholly illusory and deceptive.

Such being the result of the deliberation of the magistrates this day, I have the honour, in accordance with your request, to communicate it to you.

I have, &c.

Chairman of General Sessions of Merioneth.

MONTGOMERYSHIRE.

Sir, Clerk of the Peace's Office, Welchpool, 22 July 1861.

I HAVE the honour to inform you that at the last Quarter Sessions for the county of Montgomery, the question as to the expediency of collecting Agricultural Statistics by means of the county constabulary was referred for the consideration of a committee of justices, who are to report thereupon to the next sessions.

I have, &c.

To the Right Hon. The Secretary of State.

PEMBROKESHIRE.

Sir, Williamston, Haverfordwest, 21 October 1861.

I HAVE submitted to the Court of Quarter Sessions for the county of Pembroke, the subject of employing the police constables for the purpose of collecting returns respecting the agricultural produce of the county. I must state that the magistrates generally expressed their objection to the police constables being

being so employed, but the chief constable was directed to make inquiries on the subject, and report to the next Quarter Sessions. Having now received his report, I beg to transmit it to you.

I must say that, from my own observation, I am disposed to concur in the report. The establishment of the police force is of recent date in the county, and, as generally happens with reference to any new arrangement connected with increased rates, considerable ill will was expressed in many quarters to it. I believe that this has materially diminished, but I am afraid that at present the employment of the constables for the purpose of collecting the returns in question might be made the means of reviving former objections.

I have, &c.
(signed) *J. H. Philipps*,
Chairman of General Sessions.

"As regards the report I was desired to make at this Quarter Sessions respecting Government returns, I have reason to believe, that if the police were employed to collect statistics from the farmers, &c., as to crops it would create a bad feeling towards the force, and it would be next to impossible to obtain correct returns, as they believe it is for the purpose of increased taxation."

I have, &c.

Chief Constable.

RADNORSHIRE.

At the General Quarter Sessions of the Peace, holden at Presteign, 4 July 1861.

THE circular, 6 May 1861, of Secretary Sir George Lewis, addressed to the Chairman of Quarter Sessions, requesting him to bring under the attention of the magistrates the expediency of collecting Agricultural Statistics by means of the county constabulary, having been read :—

Resolved,

This Court is of opinion that the service of the county constabulary should be made available for the purpose of collecting the Agricultural Statistics of Radnorshire ; that the information should be obtained annually in the form furnished by Secretary Sir George Lewis ; and that a small remuneration should be given to the police force, the amount to be fixed at the ensuing Quarter Sessions.

Clerk of the Peace.

					At that season of the year, generally speaking, labourers find no difficulty in obtaining employment in this county during the months of October and November. The produce market is very high. Potatoes from 8 *d.* to 9 *d.* per stone; butter, 1 *s.* 2 *d.* to 1 *s.* 4 *d.*; milk, 3½ *d.* per quart; bread, 8 *d.* for 4 lbs.; flour, 2 *s.* 6 *d.* per stone; oatmeal, 2 *s.* 4 *d.*; meat, from 6 *d.* to 9 *d.* per lb., and all other commodities equally high. *W. ARMAGH	Men	7 5	8 8	–	Last harvest was so prolonged, and it came in so slowly, there was but little increase of the usual wages. In this county wages did not amount to the usual height during the harvest months of last year. In some instances, near towns, men got by the day 3 *s.* with diet of one meal a day, and sometimes two. Women, 1 *s.* 6 *d.*, with same amount of diet; but in remote country places there was very little increase of the usual wages, viz., men from 6 *s.* to 7 *s.* per week, and women from 3 *s.* to 4 *s.* 6 *d.* per week. Labourers have been very badly off this spring for want of employment, owing to the wetness of the season; but should the weather set in dry, there will be plenty of employment. *Louis Anderson,* County Inspector.

CARLOW	Men	7 –	10 6	nil	The average daily hire of men, women, and children under 16, and over 12 years, during the last harvest, ranged, viz., men, 2 *s.* 6 *d.* to 3 *s.* 6 *d.*; women, 2 *s.* to 2 *s.* 6 *d.*; children the same as women per diem. Owing to the wetness of season, the state of the labour market during the harvest was very unsteady. Wages rose and fell according to the changes of the weather, but there was no deficiency of hands. The crops did not ripen simultaneously, and the difficulties of saving them became considerable. The farmers took advantage of every favourable opportunity, and the labourers took advantage of the farmers, according to their emergencies. Consequently, mowing and reaping machines were brought more into use this season than in former years. *Joseph Seymour,* County Inspector.

CAVAN	Men	7 1	8 6	–	In harvest, men get an average of 14 *s.* 6 *d.*; women, 8 *s.*; and children, 7 *s.* per week, without diet, and it is not customary to make any allowance for food or drink in this county. In the harvest season the labour market is not over well supplied, and in spring and harvest the supply of labourers for the last few years has been scarcely equal to the demand; and for a few weeks at those seasons high wages are demanded by labourers, and paid by the farmers. *David Patton,* County Inspector.

CLARE	Men	7 –	–	none	The state of labour market during the last harvest was not so good as for two or three years previous, owing to the wetness of the season, which prevented the crops ripening as early as previous years. Demand for labourers not so good, for the reason stated. The harvest continues in this county from six to eight weeks; during that time labourers not permanently employed, receive, at an average, 10 *s.* per week, with diet, which consists generally of three meals a day, of potatoes and milk, and, in some instances, butter, with a small allowance of tobacco, and a glass of whiskey. None of the agricultural labourers who are constantly employed receive food or drink from the persons by whom they are employed. The farmers in this county do not employ labourers at agricultural labour by the job or task work. The foregoing remarks refer to the last harvest, and the period for which this return is required, and it is nearly the same price in this county every other year. The labour market was amply supplied during the past harvest with hands. *R. Gannon,* County Inspector.

CORK, E. R., AND CORK CITY.	Men	7 8	10 5	none	In harvest, for which there is generally a good supply of labour for every purpose required, the wages average as follows, viz.:—Men, from 12 *s.* to 15 *s.* per week; women, from 7 *s.* 6 *d.* to 9 *s.* per week; children, from 3 *s.* 6 *d.* to 5 *s.* per week. In addition to the wages stated to be given in harvest, it not unfrequently happens that, in hurried times, food, consisting of two and more meals, with a pint of beer, daily, are supplied to the labourers. In remote localities, the labour market is very dull; during the winter the farmers generally performing their own work with farm servants, which they hire by the year. *J. Duncan,* County Inspector.

CORK, W. R.	Men	7 —	9 —	When given, the food consists of bread or potatoes, or Indian meal stirabout, with milk *ad libitum*.	When diet is given, a deduction of from 2 *s.* to 3 *s.* per week is made for men, and 2 *s.* for women and children, from the rates. During the hurry of the harvest season, labourers frequently obtain from 1 *s.* 4 *d.* to 1 *s.* 8 *d.* per day, without diet, and women and children in proportion. In the rural districts, farm labourers are usually dieted; in the neighbourhood of towns, not. The labour market in this riding has, within the last few years, from emigration, and other causes, become at least 20 per cent. higher than previously, and the condition of the labourer must consequently have improved. This, however, is not so apparent to the casual observer, as the social habits of the peasant class, especially in the extreme west of the riding, seem to have undergone little or no change. Harvest work has within the last two years been done to a small extent by machinery. *Edward Hill,* County Inspector.

DONEGAL	Men	6 10	8 4½	none	In harvest the rate of hire for men ranges from 10 *s.* to 15 *s.* per week, and for women the rate of hire is about 6 *s.* per week. This county affords more than a sufficient supply of labourers for the work to be done in all seasons; but the rate of hire in harvest is high, owing to the temporary absence of the working class in Scotland and England during the season. *B. 	Women	4 —	4 6	ditto	Women obtain about 9 *s.* per week.
	Children under 16 years.	3 —	3 —	ditto	Children obtain about 4 *s.* per week. In harvest a considerable portion of the labouring classes from some portions of this county proceed to England and Scotland, where they can obtain good wages. When labourers are fed, the wages are usually about from 5 *s.* to 6 *s.* per week, and in harvest, from 7 *s.* to 8 *s.* per week. Women in this county are seldom employed, except in harvest, and children are employed for weeding during the summer. It is not customary in this county to give any regulated allowance of food and drink for labourers. *M. B. Kelly,* 1st County Inspector.
DUBLIN	Men	8 9⅔	10 8	nil	In harvest the weekly earnings for men is about 16 *s.* 6 *d.* There is little job or task work done in this county, nor is there any allowance given for meat or drink. *John Clarke,* 1st County Inspector.

On occasions of this kind labourers are sometimes fed, when at a distance from their residences. For at least half the year there is scarcely any employment for an agricultural labourer, who is, in general, a married man, with a family, and may be considered in a state of destitution. GALWAY, W. R. -	Men - - -	6 6	8 4	- - none - -	The able-bodied labourers generally leave this country for England and Scotland in June, July and August, where they procure higher wages than would be paid in any part of this country, and return home about the middle or latter end of October. I have to observe, that in very many instances the labourers on small farms are the owners, and their families, and in some localities, I believe, barely any sum is paid for labour, particularly in the western and poorer places, where the people go in what is termed "core," that is, an exchange of labour. I believe there is an objection to giving labourers food. *Michl. Jackson,* County Inspector.
	Women - -	3 7	5 6	- - none.	
	Children under 16 years.	2 5	- -	- - none.	
KERRY - - -	Men - - -	8 4	15*s.* to 20*s.*	Two meals daily of bread and milk.	The average wages for men in harvest is 12 *s.*, and women 6 *s.* weekly, with diet. No task-work done, with the exception of mowing, at which a man can earn from 15 *s.* to 20 *s.* weekly, but no food is given. Farm servants are paid from 8 *l.* to 12 *l.* annually. Women from 4 *l.* to 6 *l.*, with diet and lodging. *Thomas Smith,* County Inspector.
	Women - -	4 —	- nil.		
	Children under 16 years.	2 6	- nil.		
KILDARE - -	Men - - -	8 —	11 —	- - - -	During the hurry of harvest: From 2 *s.* 6 *d.* to 3 *s.* per day, without diet. From 1 *s.* 8 *d.* to 2 *s.* 2 *d.* per day, with diet.
	Women - -	4 —	5 6	- - - -	From 1 *s.* to 1 *s.* 8 *d.* per day, without diet. From 6 *d.* to 1 *s.* per day, with diet.
	Children under 16 years.	3 —	3 9	- - - -	From 6 *d.* to 9 *d.* per day, without diet. From 3 *d.* to 5 *d.* per day, with diet. Women and children are not generally employed by task throughout the county. The labour market well supplied, and, in some places, in excess of the demand. *Jas. Bailey,* County Inspector.
KILKENNY - -	Men - - -	5 7	- none -	- - none - -	For a short period in harvest daily labourers earn 12 *s.* a week, without diet, except where a farmer, who has much corn to cut, brings out a gang of labourers, and retains them until his work is done; this he does to secure them, without the trouble of coming into Kilkenny daily to hire them. In such cases they get two meals a day, without beer. Job work is very limited, so much so, that it would be difficult to give an average, as it would entirely depend upon the description of labour. Common daily labourers, with the spade, never do job work. Labour market is well stocked. *Robt. Curtis,* County Inspector.

KING'S COUNTY -	Men - - -	7 8	8 —	- - none - -	Women or boys are seldom engaged at task-work. The average rates of wages in this county are as stated, except during the harvest season, when men can earn from 8 *s.* to 10 *s.* per week, without diet; women 6 *s.*, and boys from 3 *s.* to 4 *s.*, on same terms; but the latter are rarely, if ever, employed except during that season. Men seldom make more at task-work than their ordinary weekly wages. The demand for labourers at present is very limited, women and boys being nearly altogether without employment. *Em. M'Can,* County Inspector.
	Women - -	3 3	—		
	Children under 16 years.	2 2	—		
LEITRIM - -	Men - - -	6 4	8 8	- - - -	The wages stated are those given, without food. A regulated "allowance of food and drink" is not the custom in this country. The labour market is generally overstocked, for many of the labourers go to Scotland and England to seek employment at hay and harvest time, during which period (for a few weeks) the average may run somewhat over the above rates. It appears there has been no task or job-work done by women or children. *Robt. Somerville,* County Inspector.

LIMERICK - -	Men - - -	7 –	10 –	None in winter. *See* remarks.	Men during harvest received 2 *s.*, with food, and 1 *s.* at other times. Women for the winter not employed. The usual food given in harvest is bread and milk, or potatoes and milk; in winter, only inside servants are fed. There is no scarcity of labourers. Some of the officers have returned a higher rate of wages, and some lower. I consider the returns I have made about an average amount paid. They get, when fed, two meals, breakfast and dinner. *S. Pheford,* County Inspector.

LONDONDERRY -	Men - - -	7 6	9 6	- - none - -	Last harvest there was much difficulty in procuring hands for reaping, and wages high accordingly. In some parts of the county labourers were employed at 15 *s.* per week, with diet; women 10 *s.*, and boys 7 *s.* The before-mentioned is exclusive of the city of Londonderry, where men have 9 *s.*; women, 6 *s.*; and children under 16 years, 4 *s.*, per week wages; no diet. Task and job-work men earn weekly, 12 *s.*; women, 8 *s.*; and children under 16 years, 5 *s.*; no diet. This return has no reference to cottier labourers, who are engaged yearly, and diet themselves with their families. *Alex. Kingston Fox,* County Inspector.
	Women - -	5 –	- -	- - none.	
	Children under 16 years.	4 6	- -	- - none.	
LONGFORD - -	Men - - -	6 –	8 –	- - none - -	8 *s.* 6 *d.* per week during the harvest.
	Women - -	4 –	4 5	- - none - -	5 *s.* 8 *d.* per week during the harvest.
	Children under 16 years.	3 2	3 6	- - none - -	4 *s.* 1 *d.* per week during the harvest. In some instances, during the harvest season, the above rate was given, and the men fed. At present there is a very good demand for labourers, at 1 *s.* 6 *d.* per day. The market rates very high for both food and fuel, and many of the labouring class suffer much, in consequence of having been unemployed during the winter season. *Henry W. May,* County Inspector.
LOUTH - - -	Men - - -	6 –	8 6	- - - -	11 *s.* to 15 *s.*, without diet, per week.
	Women - -	4 –	5 –	- - - -	8 *s.* to 10 *s.* per week, without diet.
	Children under 16 years.	3 –	4 6	- - - -	3 *s.* to 4 *s.*, without diet, at all times, per week. Since the famine, the custom of dieting labourers has fallen into disuse in this county. *Thos. Porter,* 1st County Inspector.
MAYO - - -	Men - - -	6 –	No general employment under this head.	Food is seldom given, and when it is, in hurried times, potatoes and milk constitute it; liquors are not given.	In harvest the wages increase, for men, from 8 *s.* to 9 *s.*; women, 5 *s.* to 6 *s.*; and children, 3 *s.* 6 *d.* to 4 *s.* weekly. There is no scarcity in the labour market. *James Connor,* County Inspector.
	Women - -	4 –			
	Children under 16 years.	3 –			
MEATH - - -	Men - - -	7 9	10 6	- - nil - -	During last harvest the labouring classes were fully occupied, at wages averaging weekly 14 *s.* 6 *d.* for men, 7 *s.* 11 *d.* for women, and 4 *s.* for children. After that season terminated, employment became very limited, and were it not for that afforded by the formation of the Dublin and Meath Railway, in the Eastern division of the county, the labouring classes would have suffered even greater privation this winter than they have hitherto done. Diet is very seldom given in Meath, but when such is the case, 6 *d.* per day is generally deducted from men, and 4 *d.* from women's wages. *Geo. Dickson,* 1st County Inspector.
	Women - -	4 –	6 –	- - nil.	
	Children under 16 years.	3 6	6 –	- - nil.	
MONAGHAN - -	Men - - -	7 –	Job-work, according to the officers' returns, is not carried on to any extent in this county.	These are the wages given, without food. Where food is given, it consists of potatoes and milk, or Indian corn meal, stir-about and milk. No ale or spirituous liquors given.	In harvest and spring the rates increase to nearly double the sums stated, but this lasts only about a month at each season. Labour is easily procured except in harvest and spring; but even then the supply is equal to the demand, but of course at the increased rates. *John S. Stuart,* County Inspector.

QUEEN'S COUNTY	Men - - -	6 –	9 –	No food or drink -	During the harvest work the rate of wages for men is from 2*s.* to 2*s.* 6*d.* per day, without diet, for women, 1*s.* to 1*s.* 2*d.*, and for children, 6*d.* The only task-work done in the harvest is mowing, when a good mower could earn from 15*s.* to 18*s.* per week; this of course lasts but for a few weeks. The 9*s.* entered for task-work was earned for making drains and breaking stones for the public roads. There are but few children employed, except in harvest. The gentlemen and extensive farmers in general give 6*s.* per week the year round to men, and 3*s.* to women; but those that do so, do not give any increase of wages during harvest. *P. Morgan,* County Inspector.

ROSCOMMON -	Men - - -	10 2	10 6	- - none - -	I beg to state that during the harvest season the rate of wages is considerably higher than at other periods of the year, and it was difficult to get a sufficient supply of labourers at that season; at other seasons of the year there is a sufficient number of labourers to be had in the various parts of the county. Great numbers of the labouring classes of the people have been and are now employed in the railway works between Roscommon and Castlebar (through Castlerea), and also upon the line from Longford to Sligo (through Boyle). *Fielding Green,* County Inspector.

SLIGO - - -	Men - - -	6 2½	8 –	Two meals a day in Ballymote, Riverstown, and Tubbercurry districts only.	During the busy time of harvest wages increased to 12*s.* and 15*s.* per week, with diet, in several parts of the county; the labour market was dull, and employment rather scarce, after the close of the harvest. *John Stoker,* 2d County Inspector.
	Women - -	3 10	- none -	- same.

TIPPERARY, N. R.	Men - - -	6 –	7 –	- - none - -	Pretty brisk, from 2*s.* to 2*s.* 6*d.* per diem, without diet.
	Women - -	3 –	4 –	- - none - -	Pretty brisk, from 10*d.* to 1*s.* per diem, without diet.
	Children under 16 years.	2 –	3 –	- - none - -	Pretty brisk, from 6*d.* to 8*d.* per diem, without diet. Embracing the period of this return, I have to state that in the harvest all able to work, from 14 years upwards, were employed at the rates inserted; but the wetness of last season prevented much of a rush that otherwise would have been upon labourers, who were not employed more than half time. In consequence, that left the earnings of men averaging at about 4*s.* 6*d.* per week during the six months, women and children much proportionally less; any disposed to give diet allow men 6*d.* to 8*d.*, women from 3*d.* to 4*d.*, and boys from 2*d.* to 3*d.* per diem. Cutting turf, mowing, breaking stones, are the principal job and task-work given, at which little more than average wages can be earned; few get employment at such, especially the two former, as farmers in general keep servant boys for constant work, engaged quarterly and half yearly, at the rate of 6*l.* per annum, with food. Perhaps it might not be out of place to say that from January last up to the present the labour market has been very dull. *John Anderson,* County Inspector.
TIPPERARY, S. R.	Men - - -	6 11	8 4	- - nil - -	The rate of harvest work is quite exceptional, and depends entirely on the season; last year it was unusually low, owing to the wetness of the summer, and rarely exceeded 1*s.* 6*d.* per diem for labourers, without diet; the year before it was as high as 3*s.* 6*d.* and 4*s.* in consequence of the summer being hot, and the corn crops coming to maturity together. Women and children are not employed at job or task-work. The labour market in this county is fully supplied, if not overstocked; at present labourers are much distressed for want of employment, owing to the wetness of the spring; but a more permanent effect is produced on the labour market of this county by the gradual but steady system pursued by proprietors in laying down their tillage lands for dairy or pasture purposes. *W. R. Hemsworth,* County Inspector.

TYRONE	Men	7 5½	9 6		Throughout the county there appears to have been ample employment (except perhaps in the Newtown-Stewart district, which is mountainous) in November and December. The railway works going on (Omagh and Dungannon line) have of course added to the rates of labour somewhat, by making a great scarcity of it. In harvest time 2*s.* and 2*s.* 6*d.* is given for a day's work, except in the Newtown-Stewart country; 1*s.* 8*d.* to 2*s.* 4*d.* more generally. A day's work is ordinarily about 1*s.* 6*d.* in the county. *J. Manby*, 1st County Inspector.

WATERFORD	Men	4 6	5 6	With food as below	During one month in harvest, day's wages got up to 2*s.* for men, and 1*s.* for women, with food; but as the labour market is well supplied on all other occasions, day labourers are willing to hire with wealthy farmers at 10*d.* per day, without food, for the entire year. Women have no earnings by task except unlading colliers here, when their earnings average 2*s.* 6*d.* per week, without food. Children under 16 years of age are never hired except yearly or quarterly, when they average 5*s.* per quarter, with food. The only food furnished to labourers of both sexes is full diet of potatoes, or Indian meal stirabout, and milk; no other drink. *J. H. Bracken*, 1st County Inspector.
	Women	2 9	– –	– ditto.

WESTMEATH (Mullingar).	Men	7 –	11 –	– – nil	Harvest wages only last about three weeks. Average weekly wages, men, 12*s.*; women, 9*s.*; children under 16 years, 4*s.* 6*d.*; no diet. The price of provision is high; fuel scarce and dear. The weather has been so very unfavourable, that constant employment could not be given; consequently labourers are in many places in great distress. Agricultural pursuits continue in a very backward state; had the weather proved favourable, labourers would have had sufficient employment. *H. B. Hill*, County Inspector.
	Women	4 –	6 –	– – nil.	
	Children under 16 years.	3 –	4 –	– – nil.	
WEXFORD	Men	6 3	9 –	None with the rate given.	The rate of wages during the harvest is about 2*s.* a day, without diet; there is at present a good demand for labour for spring work, when men get 1*s.* 2*d.* a day. I beg to say the labouring men are generally employed this time of the year, and they receive from 1*s.* 3*d.* to 1*s.* 4*d.* a day, without diet. In the harvest the labourers receive 2*s.* per diem. At present there are but few out of employment in this county. Previous to this (in consequence of the severity of the weather) the labouring class suffered a good deal. *Thomas Rob. Barry*, County Inspector.
	Women	3 6	– nil.		
	Children under 16 years.	2 6	– nil.		
WICKLOW	Men	7 6	10 6	4*s.* per week	In harvest time the average weekly wages of men, without diet, is 15*s.*, and for women 6*s.* Referring to the officers' returns from the different districts, I find the average rate of weekly wages to be as above stated. All the disposable hands, including male and female, are just now and have been for some time past in the receipt of full employment; while the railway which is being constructed hence to Gorey, County Wexford, absorbs all male labourers that present themselves, by which means a scarcity of hands is in some inatances felt by farmers. *Hy. Inmond*, County Inspector.

AGRICULTURAL STATISTICS, IRELAND, 1861.

TO HIS EXCELLENCY GEORGE WILLIAM FREDERICK EARL OF CARLISLE, K.G., &c.

LORD LIEUTENANT-GENERAL AND GENERAL GOVERNOR OF IRELAND.

MAY IT PLEASE YOUR EXCELLENCY,

On the 10th ultimo I had the honour of submitting a Return of the Acreage under Flax, in each county and province, in the years 1860 and 1861. I now beg to lay before your Excellency *General Abstracts* showing, by counties and provinces, the acreage under the several crops in these years, and the number of each description of live stock.

These Tables are compiled from the summaries made by the Enumerators,—who amounted to nearly 4,000, and were selected for this duty from the members of the Constabulary and Metropolitan Police forces, on account of their intelligence and experience in similar duty. Some unimportant changes may be made in the figures when the Returns for the individual farms (amounting to nearly 600,000) are subjected to revision, but it is not apprehended that alterations of any consequence will be necessary.

The inquiries commenced on the 3rd of June, and terminated about the middle of July; and were carried on by the Enumerators in their usual efficient manner. As in former years, I have to express my respectful thanks to the landed proprietors, the clergy of all denominations, the tenant farmers, and the public press, for the generous assistance afforded to the Enumerators employed in collecting the Returns.

As regards the crops, the totals exhibit an increase in the areas under Oats, Barley, and Beans and Pease; and a decrease in those under Wheat, Bere, and Rye, resulting in a total diminution in the acreage under cereals of 15,701 acres. The areas under these crops, and the changes in their extent between 1860 and 1861, are given in the following statement:—

ABSTRACT OF CEREAL CROPS.

	1860. Acres.	1861. Acres.	Increase. Acres.	Decrease. Acres.
WHEAT, ...	466,415	406,261	—	60,154

TOTAL, . . .	2,639,384	2,623,683	45,578	61,279

Decrease in Cereal Crops in 1861, . 15,701 Acres.

In "Green Crops" there was an increase in the acreage under Turnips and Cabbage, and a decrease in that under Potatoes, Mangel, Beet, Carrots, and other green crops, resulting in a net diminution in the extent under this division of 36,974 acres.

The total acreage in 1860 and 1861 under each of these crops, and the increase or decrease in their extent, in 1861, were as under:—

ABSTRACT OF GREEN CROPS.

The following statement is taken from the Tables showing the Estimated Average Produce of the Crops in 1859 and 1860. It exhibits the great loss which the country has sustained in conse-

quence of the bad harvests during these two consecutive years, and to which the falling off in the number of Live Stock would seem to be mainly attributable:—

In addition to the usual information as to the Tillage and Live Stock, Tables are given showing the Population, Families, and Houses in each County and Province in 1851 and 1861, compiled from the Abstract recently submitted to your Excellency by the Census Commissioners.

The Emigration from Ireland during the first seven months of 1860 and 1861, is also shown for each of the Provinces. The total number of Emigrants for this period in 1860, was 55,782, and in 1861, 45,508, being a decrease of 10,274 in the seven months terminating on the 31st of July last.

I have the honour to be,

Your Excellency's very faithful servant,

WILLIAM DONNELLY,

Registrar-General.

OBSERVATIONS

ON THE

AGRICULTURAL STATISTICS OF IRELAND,

FOR THE YEAR 1860.

TO HIS EXCELLENCY GEORGE WILLIAM FREDERICK, EARL OF CARLISLE, K.G.,
&c., &c., &c.,
LORD LIEUTENANT-GENERAL AND GENERAL GOVERNOR OF IRELAND.

MAY IT PLEASE YOUR EXCELLENCY,

On the 10th of August, 1860, I had the honour of submitting, for the consideration of your Excellency, a Return of the extent of Flax grown in each County in Ireland in 1859 and 1860; and on the 10th of September, General Abstracts giving, by counties and provinces, the acreage under the several crops, and the number of horses, cattle, sheep, and pigs.

Tables showing the estimated *average* produce of the principal crops, and the emigration from Ireland during 1860, have also been brought under your Excellency's notice.

I now beg to submit the usual detailed Tables, exhibiting, by Baronies and Poor Law Unions, the holdings classified according to their extent, the acreage under each crop, and the number of Live Stock on the several classes of farms.

PART I.—TILLAGE.

The surface of Ireland was divided as follows in 1860:—

Under Crops, including Meadow and Clover,	5,970,139	Acres.
„ Grass or Pasture,	9,483,634	„
„ Fallow and uncropped arable land,	35,833	„
„ Woods and Plantations,	315,324	„
„ Bog and waste, &c.,	4,479,963	„

Extent under Tillage.

CROPS.—Of the 5,970,139 acres under crops, there were—

Under Oats,	1,966,304	Acres.
„ Potatoes,	1,172,079	„
„ Meadow and Clover,	1,594,518	„

making together, 4,732,901 (equal to 79 per cent. of the entire area under cultivation), leaving for the remaining crops 1,237,238 acres. Of this latter number the extent

Under Wheat was,	466,415	acres, equal to	7·8	per cent.
„ Barley „	181,099	„ „	3·0	„
„ Turnips „	318,540	„ „	5·3	„
„ Flax „	128,595	„ „	2·2	„

The remaining 142,589 acres were occupied by bere, rye, beans, pease, mangel wurzel, carrots, parsnips, cabbage, vetches, "other green crops," and rape,—equal to 2·4 per cent. of the whole extent under tillage.

Compared with 1859, the area under wheat showed an increase of 2,240 acres; barley, of 3,205; mangel wurzel, 5,080; vetches, 8,520; meadow and clover, 157,407; and rye, pease, parsnips, and "other green crops," 1,138 acres.

The crops which showed a decrease were—oats, 16,358 acres; potatoes, 28,268; cabbage, 8,895; flax, 7,687; turnips, 3,597; beans, 2,081; carrots, 1,184; rape, 1,282; bere, 694, and beet-root 10 acres. On the whole, there was an increase in the acreage under crops of 107,534 acres.

The changes in the extent under crops, are given in the following Table:—

In cereal crops Leinster and Ulster had an increased area in 1860—the former of 896, the latter of 7,964 acres. Munster and Connaught exhibited a decrease of 11,310 and 10,946 acres respectively. Extent under Tillage.

In green crops Ulster only gave an increase, amounting to 2,074 acres. Each of the remaining provinces decreased in the extent grown, as follows :—Leinster 16,347 acres, Munster 9,538, and Connaught 3,697 acres.

In flax there was a decrease in each of the provinces. In Ulster,—to which the cultivation of this crop is almost entirely confined,—it amounted to 6,915 acres.

Meadow and clover increased to the extent of 66,245 acres in Leinster ; 44,821 in Munster; 22,494 in Ulster; 23,847 in Connaught. These changes are shown in the following Table.

TABLE III.—The acreage under cereals, green crops, flax, rape, and meadow, in 1859 and 1860, and the increase or decrease in each class, for the several provinces and for all Ireland :—

The crops which seem to decline in cultivation are barley, bere, and rye. Barley gradually decreased, from 236,293 acres in 1854, to 181,099 in 1860. The decline in the cultivation of bere is remarkable, 16,920 having been grown in 1854, and only 3,057 in 1860. Rye also diminished, though not in so large a proportion—11,366 acres having been cultivated in 1854, and 9,677 in 1860. Pease also have diminished in extent in a remarkable manner, 7,815 acres having been grown in 1854, and only 1,598 in 1860.

The cultivation of mangel wurzel has considerably increased in the period between 1854 and 1860, 21,351 acres having been under that crop in the former, and 31,986 in the latter year. The cultivation of beans was greater in 1854 than in any year since, 14,760 acres having been grown in that year, and 11,234 acres in 1860.

Beans and pease fluctuate considerably, compared with other crops, in the proportion grown, in the several counties. In Antrim there were 2,787 acres under beans and pease, the total area under crops being 259,547 acres; in Down, 1,225 acres, to a total under crops of 333,895 acres; in Carlow, there were 5 acres returned in 1860; in Cavan, 50; in Clare, 231; in Cork, 62; in Dublin, 227 acres; in Fermanagh, 90 acres; in Galway, 31 ; in Kerry, 21 ; in Kildare, 30; in Kilkenny and King's, 25 each; in Leitrim, 5 ; in Limerick and Longford, 38 each; in Londonderry, 380 ; in Louth, 556; in Mayo, 33 ; in Meath, 365; in Monaghan, 128 ; in Queen's County, 46 ; in Roscommon, 3 ; in Sligo, 6 ; in Tipperary, 98; in Tyrone, 192 ; in Waterford, 7 ; in Westmeath, 68 ; in Wexford, 5,291; and in Wicklow, 20 acres.

Extent under Tillage.

Beans and pease were chiefly cultivated in Leinster and Ulster. In Leinster, 6,696 acres was the extent in 1860, of which 5,291 were grown in the county of Wexford alone. In Ulster the area was 5,601 acres.

The potato failure appears for some years to have had the effect of promoting the cultivation of beans and pease. The total extent under these crops in 1847 was 23,768 acres; in 1849 it was 53,916 acres; in 1850 it was 62,590 acres; and since that period it has gradually declined until 1860, when the extent grown was 12,832 acres, or nearly one-fifth less than in the year 1850.

Flax is of so much importance to Ireland, that, in order to afford a comparison of its progress from year to year, as shown by its cultivation, the following Table has been prepared, giving the acreage in each county and province from the year 1854 to 1860 inclusive, from which it will be seen that the growth of this crop is almost entirely confined to Ulster.

TABLE IV.—The acreage under flax in each County and Province, from the year 1854 to 1860, inclusive, also the increase or decrease between 1859 and 1860.

The grazing lands of Ireland, (not including meadow and clover), occupy 51 of every 100 acres of the entire area of Munster, 48·3 of every 100 in Leinster, 46·5 in Connaught, and 40·6 in Ulster.

Of the counties—Meath has the largest proportion of grazing land,—57·5 acres in every 100 of its entire surface being under grass. Fermanagh, Limerick, Clare, Westmeath,

Leitrim, Tipperary, Roscommon, Antrim, Kilkenny, Galway, and Kildare follow next in order, more than one-half of their respective areas being appropriated to grazing. Carlow, Cavan, Cork, Kerry, King's, Longford, Monaghan, Queen's, Sligo, Waterford, Wexford, and Wicklow have from 40 to 50 acres, and Armagh, Donegal, Down, Dublin, Londonderry, Mayo, and Tyrone from 30 to 40 acres in every 100, under pasture. Louth has only 28·8 acres under grass in every 100.

The proportion of the entire area of the several counties under grass is shown in the following Summary :—

A considerable change has taken place in the number of holdings since 1841. In that year there were 310,436 farms above 1 to 5 acres ; these were reduced to 88,083 in

1851, and further to 82,844 in 1860, making a total decrease since 1841 of 227,592, equal to 73 per cent.

Farms above 5 to 15 acres, which numbered 252,799 in 1841, decreased to 181,358 in 1860, equal to a reduction of 28 per cent. Farms above 15 to 30 acres, numbered 79,342 in 1841, and 140,873 in 1860, being an increase of nearly 78 per cent. in the period.

Farms above 30 acres increased from 48,625 in 1841 to 158,154 in 1860—equal to 225 per cent.

The variation in the number of holdings in the several classes in 1841, 1851, and 1860, is given by provinces in the following Table:—

Number of Holdings in 1841, 1851, and 1860.

TABLE VI.—The number of holdings in each Province in 1841, 1851, and 1860, according to the classification used by the Census Commissioners of 1841; the increase or decrease in each class between 1841 and 1860; and the proportion per cent.:—

The several holdings in 1860 were cultivated in the following proportions:—On holdings from 1 to 5 acres, 44 per cent. under cereal crops, 41 under green crops—including potatoes—and 13 under meadow and clover. On farms above 5 to 15 acres cereal crops occupied 47·86 per cent.; green crops, including potatoes, 32·59; and meadow and clover, 16·22. On the holdings above 5 to 15 acres, the cereal crops gradually decreased from 47·86 acres on the smaller to 27·91 in every 100 acres on the larger farms.

The proportionate extent of potatoes grown on the farms gradually decreased from 37·3 on farms above 1 to 5 acres, to 6·6 in every 100 on farms above 500 acres; but turnips showed a gradual relative increase as the farms increased in size—2·22 per cent. being grown on holdings from 1 to 5 acres, and 8·76 per cent. on those above 500 acres.

"Other green crops" were also grown in greatest proportion on the larger farms.

The proportionate extent under meadow and clover gradually increased from 13·13 per cent. on farms above 1 to 5 acres, to 52·03 per cent. on farms above 500 acres.

The extent under each crop, on the several classes of holdings in 1860, is given in the following Table:—

Extent of Tillage on the several classes of Holdings.

Of the total number of holdings, 30 in every 100 are from 5 to 15 acres in extent; 23 from 15 to 30, and 12 per cent. above 30 to 50. Fifty-nine in every 100 acres of the land comprising the farms above 500 acres are bog and waste,—the proportion under which gradually decreases as the farm diminishes in size, until, on the smallest holdings, it covers 7·3 per cent. The average extent of the holdings not exceeding 1 acre is 2R. 16P.; of farms above 500 acres it is 1,237A. 3R. 7P. On the remaining classes it is nearly a mean between the extremes denoting the extent.

The number of holdings; the quantity of land held by each class of landholders; the area and proportion under crops, grass, fallow, plantation, and bog and waste; and also the average extent of the holdings, are given in the following Table :—

TABLE VIII.—The number of holdings by classes; the entire extent of land held by each class; also the area under crops, grass, fallow, plantations, bog, and waste, in the several classes :— Number of Holdings and Division of Land.

In reference to the produce of the crops of 1860, I beg to give the following extract from the Tables which have been already submitted to your Excellency :—

"The information respecting the estimated produce of the crops was procured, as in "former years, by intelligent members of the Constabulary, from respectable farmers and "other persons conversant with the average yield per acre of the several crops grown in "the Electoral Division in which they lived. The rates thus obtained were then submitted "to the Chairman and Board of Guardians of the several Unions for their approval or "revision; and I am happy to state that the Returns have been revised for 2,415 out of "3,438 Electoral Divisions—the entire number in Ireland.

"The first two Tables give the area of each county in statute acres, and the extent "under cereals, potatoes, and other crops; also, the produce of the grain crops in "'quarters,' and of potatoes in tons; and show for all Ireland the acreage under the "principal crops in 1847, and in each year from 1849 to 1860. The yield per acre and "total produce are also given. The estimated average produce, and the extent of land "under each crop by counties and provinces are also given.

"On comparing the yield, as shown by the Returns, it appears that in 1860 wheat pro-

"duced a less quantity per acre—(4⅗ barrels of 20 stones)—than in any year since 1849, "with the exception of 1850, when the estimated acreable yield was only 4⅗ barrels. Oats "and barley gave a better yield than in 1859, and with a less acreage, produced a greater "quantity of grain. Bere and rye decreased in yield, and beans and pease increased. As "regards the potato crop, the produce was considerably under that given for any of the "previous 12 years. Turnips, mangel, and cabbage also decreased in yield; but flax "and hay show a favourable increase over the previous year.

"There was much variation reported in the crops as grown in different localities. Thus, "in the midland districts, turnips were stated to be generally inferior, although some crops "were good, and yielded about 30 tons to the statute acre. Potatoes also were very "variable, the late sown and not well manured being very inferior; the disease was said to "be general, and the quality of the tubers of those that were sound was not equal to former "years. Hay was a heavy crop, although many of the low-lying meadows suffered from "floods. Early oats were good and productive; but late crops, in many instances, "suffered, and were not maturely ripened; their yield was, consequently, very light. In "some of the northern districts oats, both as regards grain and straw, were stated to have "been little inferior to former years. Hay was said to be about the same; potatoes yielded "about half compared with the crop of 1859; and turnips and cabbages afforded but "very small crops.

"The following is the estimated produce of the principal crops grown in 1859 and 1860, "and the increase or decrease in the latter year:—

Crops.	Estimated Produce.		Increase or Decrease in 1860.	
	1859.	1860.	Increase.	Decrease.
	Quarters.	Quarters.	Quarters.	Quarters.
Wheat,	1,468,475	1,271,588	.	196,887
Oats,	8,170,856	8,841,924	671,068	.
Barley,	694,004	750,245	56,241	.
Bere,	18,111	14,113	.	3,998
Rye,	27,792	27,896	104	.
	Tons.	Tons.	Tons.	Tons.
Potatoes,	4,329,523	2,741,380	.	1,588,143
Turnips,	3,462,071	2,627,978	.	834,093
Mangel Wurzel,	307,946	290,241	.	17,705
Cabbage,	329,997	188,711	.	141,286
Flax,	21,577	23,760	2,183	.
Hay,	2,321,779	3,206,402	884,623	.

"It will be observed that there was an increase in 1860 of 727,413 quarters in the pro- "duce of oats, barley, and rye, and a decrease of 200,885 quarters in wheat and bere, "leaving a net increase of 526,528 quarters in the yield of cereal crops. Wheat, notwith- "standing a greater extent having been sown than in 1859, shows a diminished produce; "potatoes show a decrease of 1,588,143 tons; turnips, 834,093 tons; mangel wurzel, "17,705 tons; and cabbage, 141,286 tons; making a total decrease in the produce of "potatoes and green crops of 2,581,227 tons. The yield of flax was more by 2,183 tons, "owing to a considerable increase in the produce, the breadth sown being less by 7,687 "acres, than in 1859. Hay also shows a large increase—884,623 tons, there being 157,407 "acres more of meadow-lands in 1860, and an increased yield of 8 cwt. per statute acre, "being the largest total produce of any year since 1847.

"The acreage under tillage is shown in the following Table:—

Crops.	Extent Cultivated in		Increase or Decrease in 1860.	
	1859.	1860.	Increase.	Decrease.
	Acres.	Acres.	Acres.	Acres.

It will be seen, that the highest acreable yield of wheat in 1860 was in the County of Londonderry, in which 6⅔ barrels per acre was returned as the average produce; the lowest average yield was in Queen's County—3⅔ barrels to the acre. The highest acreable yield of oats was in Dublin—9$\frac{3}{10}$ barrels to the acre; and the lowest in Monaghan—6 barrels. Sligo gave the highest yield for barley—9$\frac{3}{10}$ barrels per acre; and Clare the lowest—5⅘ barrels. Dublin gave the highest yield in bere—10⅘ barrels to the acre; and Cavan and Kerry the lowest—4⅘ barrels. Potatoes gave the highest produce per acre in Mayo, where

the rate was 24⅗ barrels; and the lowest in Wexford, in which they were only 10⅘ barrels to the acre. The acreable produce of turnips was highest in Donegal—10⅘ tons; and lowest in King's County—6⅔ tons. Mangel wurzel was also returned as highest in Donegal, in which the yield was 13⅘ tons to the acre; and lowest in the Queen's County, in which it was 7⅘ tons.

The highest acreable produce for hay was in the County of Armagh—2⅔ tons to the acre; and the lowest in Donegal and Kildare, in each of which it was returned as 1⅘ tons to the acre.

"The extent under each of the principal crops, the estimated total produce, and the "average yield per acre for all Ireland, in each year from 1851 to 1860, both inclusive, "were as under:—

Since 1851, the greatest quantity of wheat produced in Ireland was in the year 1858, when the quantity grown was 1,746,464 quarters. Oats was grown in the largest quantity in 1852, the produce being 11,712,528 quarters. The largest quantity of barley grown was in 1853, when it produced 1,398,705 quarters. Bere and rye were grown in greatest quantity in 1851, in which there were 383,336 quarters produced. Last year the produce of these crops was only 42,009 quarters. The highest yield of potatoes was in 1855, when the estimated total produce was 6,235,281 tons.

Turnips gave the highest yield in 1853, the produce in that year having been 6,562,471 tons. Mangel wurzel was produced in the greatest quantity in 1853, when the yield was 588,988 tons. Hay was produced in the greatest quantity in 1860, when the yield was 3,206,402 tons.

PART II.—STOCK.

The number of horses, cattle, sheep, and pigs in Ireland in 1860 was as follows:—

Horses, 619,811, being a decrease of 9,264 on the previous year; mules, 19,689, being an increase of 385. Asses numbered 167,845, being 1,509 less than in 1859; cattle numbered 3,606,374, being 209,224 under those returned in the previous year.

The sheep were 3,542,080, showing a decrease of 50,724 on 1859; pigs numbered 1,271,072, being 5,321 more than in the previous year; poultry decreased 190,973, the total number returned in 1860 having been 10,060,776; goats decreased by 24,821, the number in 1860 being 194,465. These animals have been gradually decreasing in number since 1854.

The number and ages of the several kinds of live stock in 1859 and 1860, and the increase or decrease in 1860 are given in Table IX. The gross number in 1841, and from 1851 to 1860, in Table X.

On reference to page 203 may be ascertained the exact position of each of these mills, and the number of weeks it was at work during the year ending 30th June, 1860, and other particulars relating thereto.

There were 1,044 mills for scutching flax in Ireland in 1860 ; of these 1,016 were in Ulster, 15 in Leinster, 8 in Munster, and 5 in Connaught.

Two hundred and fifty-nine were in the county Donegal, of which 258 were worked by water-power and 1 by steam ; 180 were in the county of Down, of which 129 were water-mills, 27 were worked by steam, 20 by the wind, and 4 were worked by both water and steam. In Londonderry there were 164 scutching mills, of which 155 were moved by

water, 7 had steam-power, and 2 were worked by both water and steam. Tyrone had 145 mills, of which 3 only were steam; 1 was worked by horses, and the remaining 141 were moved by water. In Armagh there were 107 mills, of which 10 were worked by steam, 4 by water and steam combined, and 2 by horse-power; the remaining 91 being water-mills. In Antrim there were 89 mills, of which 84 were worked by water, 3 by steam, and 2 by water and steam. In the county of Monaghan there were 50 of these mills, of which 44 were moved by water, 4 by steam, 1 by water and steam, and 1 by horses. Cavan and Fermanagh had each 11 of these mills.

Of the total number of mills in Ireland, 941 were worked by the streams and rivers of the country, 63 were worked by steam, 14 had both water and steam power, 4 were moved by horses, and 20 by the wind—these latter being all in the county of Down.

The only scutching mill in the county Leitrim was worked by the prisoners in the gaol of Carrick-on-Shannon.

In conclusion, I beg to express my best thanks to the landed proprietors, the clergy of all denominations, and tenant farmers in Ireland, for their continued assistance, in affording the necessary information to the Enumerators. I have also to acknowledge my obligations for the valuable aid afforded by the Press in making known the objects for which these Statistics are collected. And I beg to say that the Constabulary and Metropolitan Police who acted as Enumerators discharged this duty in their usual efficient manner.

I have the honour to be, my Lord,

Your Excellency's very faithful servant,

William Donnelly,

Registrar-General.

Henry Wilkie,

Chief Clerk.

Beans and Pease were included in the same column in the Returns up to the year 1851. The produce of Flax in 1847 was estimated at 48 stones per statute acre. There was not any return of produce for Cabbage in 1847, as the extent of land under that crop was entered under the head of "Other Green Crops" in the Enumerators' returns.

AGRICULTURAL STATISTICS, IRELAND.

THE ESTIMATED AVERAGE PRODUCE OF THE CROPS;

AND

THE EMIGRATION FROM IRELAND

IN THE YEAR 1861.

TO HIS

EXCELLENCY GEORGE WILLIAM FREDERICK, EARL OF CARLISLE, K.G.,

&c., &c., &c.,

LORD LIEUTENANT-GENERAL AND GENERAL GOVERNOR OF IRELAND.

MAY IT PLEASE YOUR EXCELLENCY,

I had the honour to submit, on the 10th of August, 1861, a return showing the acreage of flax by Counties and Provinces; and on the 5th of September, General Abstracts of the extent under the various crops and the number of Live Stock in 1860 and 1861; also the Emigration from the several Ports of Ireland for the first seven months of the year 1861. I now beg to submit Tables compiled in this department, exhibiting the estimated average produce of the Crops in 1861, compared with that of the previous year.

The total number of Emigrants who left the country during the year ending 31st December, 1861, is also given, distinguishing the Ports whence they sailed, and the County from which they came; their sex and age are also given.

The information contained in the Tables relating to the Crops was procured, as on former occasions, by intelligent members of the Constabulary Force, who were specially selected for the purpose. The persons from whom the estimated average produce of the Crops per acre was obtained, were respectable farmers, and other parties known to be acquainted with the probable *average* yield per acre in each Electoral Division.

In order to obviate the difficulty arising from the variety of Weights and Measures in Ireland, the Enumerators were directed to state the yield per acre in Irish, Statute, or Cunningham Measure, whichever was best known to the farmers in the neighbourhood; and, with regard to Weights, to be particular to specify that in use in the locality; the name and address of the person from whom the information was received in each Electoral Division were also given in the Returns.

The rates of produce thus obtained by the Constabulary were then forwarded by me to the several Boards of Guardians in Ireland, to whose kind attention and courtesy I am indebted for having received revised returns for 2,555 Electoral Divisions, out of 3,438.

The Tables relating to the yield of the land, show by Counties and Provinces the entire area under Crops, the estimated *average* produce per Statute Acre, and the total yield. The produce of the cereal Crops is given in Quarters, Barrels, and Tons; and of Potatoes and Green Crops in Barrels and Tons.

A Table is also given showing the average yield of the Crops in 1847, and from 1849 to 1861 inclusive.

The estimated average produce per statute acre, 1861, was under that of any year since

1847. The area under Oats was less in 1861 than in any year from 1847 to 1856; since 1856, however, its extent has varied but little. Barley, Bere, and Rye, especially the two last-mentioned crops, have diminished considerably in the extent sown since 1847. Beans and Pease also show a decreased breadth during the period referred to. The area under Potatoes has increased considerably between 1847 and 1861—the tendency appearing to be, that as the acreage under Potatoes increases, that under Wheat, Barley, Bere, Rye, and Beans and Pease decreases. The extent under Turnips has fluctuated during the same period; but the breadth under this important crop seems, on the whole, to tend towards an increase. Mangel Wurzel, Cabbage, and Meadow, greatly increased in extent during the years referred to.

The total area under Wheat in 1861 was 401,243 acres, being 65,172 less than was grown in the previous year, the average rate of produce per statute acre was returned as $3\frac{7}{8}$ Barrels of 20 stones, giving a total yield of 851,871 quarters. This yield was one barrel per acre less than that returned in the previous year, which, together with the diminished area, caused a decrease in the yield of Wheat of 419,717 Quarters under the produce of 1860.

Oats occupied 1,999,160 acres, being an increase of 32,856 compared with the preceding year. The acreable produce was $6\frac{2}{3}$ Barrels of 14 stones, being $\frac{4}{5}$ of a Barrel less than the previous year. This Crop yielded 8,045,689 Quarters, being 796,235 less than the Crop of 1860.

Barley, Bere, and Rye, covered 210,537 acres, being 16,704 more than in 1860. The acreable yield of Barley was $6\frac{1}{8}$ Barrels of 16 stones; of Bere, $6\frac{2}{3}$ Barrels of 16 stones; and Rye, $4\frac{3}{10}$ Barrels of 20 stones. The total yield of these three Crops was 720,538 Quarters; being 71,716 less than in the former year. This decrease was caused by the difference in the yield per acre of $1\frac{3}{10}$ Barrels of Barley, $\frac{7}{10}$ Barrel of Bere, and $\frac{2}{3}$ Barrel of Rye.

Potatoes had an area of 1,133,504 acres, being 38,575 less than was under them in the previous year. The acreable yield was $13\frac{1}{10}$ Barrels of 20 stones, being $5\frac{3}{5}$ Barrels less than in 1860, which, with a diminished area, caused a total deficiency of 882,947 Tons.

There were 334,104 acres of Turnips, being 15,564 more than in 1860. The acreable yield was $10\frac{1}{2}$ Tons; being $1\frac{9}{10}$ Tons above that of the previous year. The total yield of the Crop was 3,392,884 Tons; being 764,906 more than in 1860.

Cabbage was grown on 30,020 acres; being 7,235 more than in the previous year. The acreable yield was estimated at $10\frac{2}{3}$ Tons; being $2\frac{1}{10}$ Tons more than in 1860. This Crop produced 310,907 Tons; being 122,196 more than in the preceding year.

The extent under Mangel Wurzel was 22,833 acres; being 9,153 less than in 1860. This Crop produced 235,638 Tons; being 54,603 under that of the previous year. The decrease was owing to a diminished area, as the acreable yield, $10\frac{3}{10}$ Tons, was $1\frac{1}{3}$ Tons above that of 1860.

There were 1,546,206 acres under Hay, being 48,312 less than in 1860. The acreable produce was returned as $1\frac{4}{5}$ Tons, being one-fifth of a Ton under the produce of the previous year. The general yield, however, notwithstanding the decrease, was larger than in any year since 1847, with the exception of 1860.

Flax had an area of 147,957 acres, being 19,362 more than in 1860. The acreable yield was $24\frac{2}{3}$ stones, being $5\frac{1}{3}$ stones less than in the previous year. The total produce was 22,568 Tons, being 1,192 Tons under that of 1860.

Table I.—The extent under each of the principal Crops in 1860 and 1861, and the increase or decrease in the latter year, is given in the following Table:—

Crops.	Extent Cultivated in		Increase or Decrease in 1861.	
	1860.	1861.	Increase.	Decrease.
	Acres.	Acres.	Acres.	Acres.
Wheat,	466,415	401,243	.	65,172
Oats,	1,966,304	1,999,160	32,856	.
Barley,	181,099	198,955	17,856	.

Flax,	128,595	147,957	19,362	.
Hay,	1,594,518	1,546,206	.	48,312
Total Decrease,				69,491

Table II.—The estimated produce per statute acre in 1860 and 1861, and the increase or decrease in 1861, were as under:—

Crops.	Produce per Acre.		Increase or Decrease in 1861.	
	1860.	1861.	Increase.	Decrease.
Wheat, in Barrels of 20 stones,	4·6	3·6	.	1·0
Oats, „ 14 „	7·2	6·4	.	·8
Barley, „ 16 „	7·5	6·2	.	1·3
Bere, „ 16 „	7·1	6·4	.	·7

Flax, in Stones of 14 lbs.,	29·6	24·4	.	5·2
Hay, in Tons,	2·0	1·8	.	·2

During the period from 1847 to 1861 the highest acreable yield of Wheat was returned for 1847 and 1854, and the lowest for 1850 and 1861. Of Oats, the highest acreable produce was in 1854 and 1847, and the lowest in 1859 and 1861. Barley had its greatest yield in 1853 and 1854, and its lowest in 1859 and 1861. Potatoes afforded the highest yield per acre in 1847 and 1853, and the lowest in 1860 and 1861. Turnips gave the highest yield in 1853 and 1855, and lowest in 1860. Hay gave its highest yield in the year 1852, when it was $2\frac{1}{10}$ tons to the acre, and its lowest in 1859, when it was 1^{5} tons to the acre. The yield of this crop was returned as 2 tons to the acre in 1849, 1850, 1851, 1853, 1855, and 1860.

Table III.—The total produce of the principal Crops grown in 1860 and 1861, and the increase or decrease in the latter year, were as follows :—

Crops.	Estimated Produce.		Increase or Decrease in 1861.	
	1860.	1861.	Increase.	Decrease.

Mangel Wurzel,	290,241	235,638	.	54,603
Cabbage,	188,711	310,907	122,196	.
Flax,	23,760	22,568	.	1,192
Hay,	3,206,402	2,810,352	.	396,050

Comparing the average acreable yield of the Crops in 1861, according to the Returns received from the several Counties and Provinces, Dublin and Londonderry give the highest rate for wheat—6 Barrels,—and Galway the lowest—$2\frac{1}{2}$ Barrels per acre. Dublin the highest for Oats—$9\frac{3}{5}$ Barrels,—and Clare the lowest—$4\frac{3}{5}$ Barrels.

Londonderry gives the highest for Barley—$8\frac{3}{5}$ Barrels, and Longford the lowest—$2\frac{3}{10}$ Barrels.

Carlow stands highest in the yield of Potatoes, having $24\frac{4}{5}$ Barrels to the acre; and Clare the lowest, having only $7\frac{1}{5}$ Barrels.

Dublin and Louth give the highest yield for Turnips, having 15 Tons; Clare the lowest, $5\frac{1}{5}$ Tons to the acre.

The County Dublin is highest in Mangel Wurzel—15 Tons to the acre; and Limerick the lowest—$6\frac{1}{10}$.

The yield of Cabbage was greatest in Dublin, 18 Tons to the acre. In Wexford the yield was lowest, $5\frac{3}{5}$ Tons.

The acreable produce of Meadow was highest in the County Armagh, where it was $2\frac{3}{10}$ Tons; and lowest in Cork, $1\frac{1}{2}$ Tons.

Of the Provinces, Ulster gives the largest acreable yield of Wheat, Oats, Potatoes, Mangel Wurzel, and Hay. Leinster is highest in Barley, Bere, Rye, Turnips. Connaught gives the highest acreable yield of Cabbage.

Table IV.—The average acreable yield of the principal Crops in 1860 and 1861, by Counties and Provinces, is given in the following Table :—

Counties and Provinces.	Estimated Average Yield per Statute Acre.																					
	Wheat, in barrels of 20 stones.		Oats, in barrels of 14 stones.		Barley, in barrels of 16 stones.		Bere, in barrels of 16 stones.		Rye, in barrels of 20 stones.		Potatoes, in barrels of 20 stones. As it is of importance to show *even approximately* the amount of Farm produce available for food in Ireland, a Table is given on the foregoing page, exhibiting the quantity of Corn, Beans, Pease, and Potatoes, produced in each County; also the *average* number of pounds of Corn, Beans, and Pease, and stones of Potatoes, to each family, according to the Census of 1861. It appears by the Returns that the last harvest, notwithstanding the general deficiency, yielded sufficient Corn, Beans, and Pease to supply 2,865 lbs. to each family, and that Potatoes produced *an average* of 263 stones for each family. These quantities are equal to 7·85 lbs. of Corn, Beans, and Pease, and 0·72 or nearly $\frac{3}{4}$ of a stone of Potatoes a-day to each family during one entire year.

The extent under each of the principal Crops, the estimated total produce, and the *average* yield per acre for all Ireland, in each year from 1851 to 1861, both inclusive, were as under:—

As the falling off in the yield of the Crops in 1861 may be chiefly attributed to the very unfavourable state of the weather, it will not be uninteresting to give an abstract of the Meteorological Observations taken at the Ordnance Survey Office, Phœnix Park, Dublin, with which I have been kindly furnished by Captain Wilkinson, R.E.

The mean temperature of the year was 49° 2′ Fahrenheit. The barometer stood highest during the year on the 2nd of February, at half-past nine o'clock, A.M., wind S.W., when it was 30·500 inches; and lowest on the 21st of the same month at half-past three in the afternoon, with the wind from the N.E., when it was 28·591 inches.

The highest temperature in air during the year was on the 14th June, when the thermometer registered 79° 9′; it was lowest on the 13th December, when it fell to 18°.

The greatest rain-fall in twenty-four hours was 1·026 inches on the 13th January, with the wind from the N.N.W. Rain fell on 182 days during the year, being about six months of rainy days. A quantity of rain sufficient to cover the whole surface of the country to a depth of two feet three inches fell during that period.

Within the Phœnix Park there fell 1,090,184,608 gallons, representing a weight of 4,866,895½ tons. The most prevailing winds were from the S.W., from which point it

blew 130 days, with an average pressure of 3·98 lbs. to the square foot. The weather was calm on 26 days only. The strongest wind came from the N.E. on the 9th February; its average pressure was 25 lbs. per square foot.

CIRCULARS

AND

COPIES OF THE FORMS USED IN OBTAINING THE AVERAGE YIELD OF THE CROPS PER ACRE, FOR 1861.

Agricultural Statistics' Office,
5, Henrietta-street, Dublin,
1st November, 1861.

SIR,

You will receive herewith blank copies of "Form C," referred to in the "General Instructions" addressed to the Enumerators the 16th of last May, in order to enable you to procure Returns of the *Rates of Produce* of the various Crops grown in *each* of the *Electoral Divisions* mentioned in the enclosed List, which should be sent back to this Office with the Returns—in one file—when completed.

I beg you will be so good as to select for this service Enumerators known to you for their intelligence and acquaintance with the parties resident in the *Electoral Divisions* for which the Returns are required. Instructions as to the method of filling the Forms are printed on them. *Please direct the Enumerators to pay particular attention to these instructions.*

From the friendly co-operation and assistance which have been afforded to the Enumerators by all ranks and classes when collecting the Returns for this year, which show the acreage under the several Crops and the number of Live Stock, I confidently trust that by making inquiries from the resident Gentry, Clergy, and intelligent Farmers in the District, a valuable approximation to the *average* Rates of Produce per Acre of the various kinds of Grain, Potatoes, and other Crops grown in the several Electoral Divisions will be attained;—that being the object of this Return,—to which *accuracy, as far as possible*, can alone give any real value.

Your attention is particularly requested to this subject, in consequence of the increasing interest and importance now attached to Agricultural Statistics, and I trust you will be enabled to forward the Returns for your District to this Office before the 20th of November, in order that a General Abstract of the results may be compiled and submitted for the consideration of His Excellency the Lord Lieutenant.

It is my intention to solicit the assistance of the Boards of Guardians on this difficult question,—as in former years,—in order to procure their opinions as to the Rates of Produce in the several Electoral Divisions and Poor Law Unions in Ireland. This information will form a valuable auxiliary to that obtained through the Constabulary.

I am, Sir,

Your obedient servant,

WILLIAM DONNELLY, *Registrar-General.*

To the Sub-Inspector of Constabulary

at ———

FORM C.—AGRICULTURAL STATISTICS—IRELAND, 1861.

County of ——— *Union of* ———
Constabulary District of ——— *Electoral Division of* ———

RETURN showing the Estimated *Average* Produce per *English* and *Irish* Acre, of the following Crops in the Electoral Division of ———.

*** If the Weights and Measures in use in the Electoral Division are different from those here printed opposite to each Crop, the Enumerator will draw his pen through the latter, and SUBSTITUTE THE WEIGHT OR MEASURE USED IN THE LOCALITY.

CROPS.	Produce of the Electoral Division.		Name and Address of Person from whom the information was obtained.
	Per *English* or Statute Acre.	Per **Irish* Acre.	
Wheat, in barrels of 20 stones,			
Oats, do. 14 do.			
Barley, do. 16 do.			
Bere, do. 16 do.			
Rye, do. 20 do.			
Beans, in bushels of 8 galions,			
Pease, do. do., .			
Potatoes, in barrels of 20 stones,			
Turnips, in tons, . .			
Mangel Wurzel, do., . .			
Carrots, do., . .			
Cabbage, do., . .			
Green Vetches (*for feeding purposes*), in tons, . .			
Flax, scutched, in stones of 14lbs.			
Rape Seed, in barrels of 16 stones,			
Rape (*for feeding purposes*), in tons, ...			
Hay, in tons, . .			

* NOTE.—The *Irish* Acre is equal to 1A. 2R. 19P. *English* or *Statute* Measure.

I certify that I have procured the Information contained in the foregoing Return from the Persons above named, who in my opinion were well qualified to give it, and I believe the Estimated *Average* Rates of Produce to be correct. Dated at ——— this —— day of ———, 1861.

(*Signature of the person by whom the information was obtained*), ———

I believe the foregoing Return to be correct.

——— *Sub-Inspector.*

INSTRUCTIONS.

1. In filling in the Rate of Produce, the *yield* will be stated per *Irish* and also per *English* or *Statute* Acre, for *each* Crop, *and the Enumerator will be particular to enter the Rate in the Weight or Measure used in the locality*, as directed by the note at the head of the Form. It is particularly to be borne in mind that the average yield per Acre is for the *entire* Electoral Division—not for any individual Farm or portion of the Electoral Division.

2. One Form will be filled by the Enumerator for *each Electoral Division*, as per List furnished to the Sub-Inspector.

3. The information as to the probable yield of the Electoral Division for which the Return is made, should be procured from intelligent Landholders of the District, whose Names and Addresses will be stated in the column left for that purpose.

4. The greatest care should be taken in filling these Forms, and the information should be procured and the Return sent to the Sub-Inspector of the District, on the 20th of November—sooner if practicable.

5. In those parts of the country in which the *Cun-*

ningham Measure is used, the word "*Irish*" may be erased with the pen, and the word "*Cunningham*" substituted at the head of the column. A *Cunningham* Acre is equal to 1A. 1R. 6P. *English* or *Statute* Measure.

WILLIAM DONNELLY, *Registrar-General.*

Agricultural Statistics' Office,
5, Henrietta-street, Dublin,
3rd December, 1861.

GENTLEMEN,

I take the liberty of enclosing copies of Returns showing the *estimated average produce* by the *English*, and also by the *Irish* Acre, of the various crops grown in 1861, within each Electoral Division of the Union of in order to procure from the Guardians their opinion as to whether the AVERAGE PRODUCE per Acre,—obtained by the Enumerators from resident Landholders,—fairly represents the yield of the respective crops.

In case the Guardian signing the Return considers any *rate* entered upon it, to be *above* or *below* what it should be, columns are provided in which to insert the *corrected rate*.

As these Forms may be filled without much trouble, I shall feel much obliged if the Guardians will be so good as to favour me with their opinion respecting the produce of the various crops in their Union, and thus aid in increasing the value of these Returns, which are of so much general importance to the community.

May I request you will be so good as to give directions to the Clerk of your Board to *return these Forms to me as soon as possible*, as they are required to assist in compiling for publication the Table of estimated average produce of the Crops in 1861.

In case it is inconvenient to obtain the signature of an Ex-Officio or Elected Guardian, particularly connected with any Electoral Division, the signature of any other Guardian acquainted with the District, will be sufficient;—or, if these *rates of produce* are discussed and decided upon at a Meeting of the Board, the signature of the Chairman, or of the Clerk, with his approbation, will answer the purpose.

I take this opportunity of expressing my obligations to the many Guardians who were so kind as to assist me in the revision of the Returns of Produce in 1860, and I trust that, on public grounds, I may be excused for soliciting the opinion of your Board on this subject.

Communications to this Office NEED NOT be prepaid.

I am, Gentlemen, your faithful servant,

WILLIAM DONNELLY, *Registrar-General.*

To the Chairman and Board of Guardians
of the Union of ———

* The *Registration Counties* consist of groups of entire Registration Districts, which Districts are generally identical with the Poor Law Unions. Whenever a District extends into more than one County it is assigned wholly to that county in which the greater part of the population is located, hence most of the Registration Counties differ more or less from the Counties Proper.

* In this statement the *amount* of the two classes of orders issued (viz. those for sums up to 2*l.*, and those for sums above 2*l.* up to 5*l.*), and the *number and amount* of the different classes of orders paid is estimated. Further, it will be observed that the number and amount of orders paid in the United Kingdom is in excess of the number and amount issued. This is caused by the excess in the number and amount of orders of *Canadian* issue included in the payments over the number and amount of issues on Canada by the United Kingdom included in the issues.

SHEFFIELD AND NEIGHBOURHOOD.

THE CHAMBER OF COMMERCE reports that in consequence of the falling off in the American demand for cheap Table Knives, Pocket Cutlery, &c., Wages in those Branches were reduced, in the year 1861, from 20 to 30 per cent. In 1860, the Wages paid to Workmen, for common Table Knives, were from 18*s.* to 24*s.*, and for common Spring Knives from 16*s.* to 25*s.* per Week. No Change has taken place in the Rate of Wages for other Branches of Trade since the publication of the last Return.

NOTE BY LEICESTER CHAMBER OF COMMERCE:—

PLAIN HOSIERY AND UNDER CLOTHING.—The increase in the rate of wages in this branch since 1840 is variously estimated:—in narrow machinery, from 7½ to 10 per cent., and in wide machinery from 15 to 25 per cent. for men, and probably 10 per cent. for women. The narrow frames are old fashioned machinery employed principally as a domestic manufacture, and capable of producing as much in the hands of women or stout youths, as if worked by able-bodied men. The result cannot fairly be considered as representing the earnings of able-bodied men, as this class of machinery is frequently used as an adjunct to some other employment, as gardening, harvesting, &c. Their use is gradually diminishing, and with the competition of the new wide frames will no doubt still rapidly diminish. The employment of women as "Seamers," from the circumstances of the trade is ill-paid, being generally a partial employment to fill up spare time; and being in competition with children's labour, the amount paid is in a great measure in accordance with the latter.

FANCY HOSIERY AND UNDER CLOTHING.—The rate of wages in this branch of trade is not lower than in 1840, fixed salaries having advanced. The rate of earnings of skilled labourers is dependent upon each individual capacity, and is somewhat difficult to arrive at. The rates of wages for this branch have been estimated for full employment, as in consequence of the Fancy Hosiery Trade being a season trade, employment is not constant, and the wages range above those paid in the plain trade.

YARN.—The rate of wages in this trade are slightly higher than in 1840, probably from 5 to 10 per cent.

DYEING, TRIMMING, AND DRESSING HOSIERY AND LOOPED FABRICS.—The rate of wages in this branch not materially altered since 1840, but not lower.

* NOTES BY WOLVERHAMPTON CHAMBER OF COMMERCE :—

PUDDLING.—The price for Puddling has of late years been made to depend on the list-price for Bars. The Puddler receives as many shillings per ton as rs are quoted pounds ; but occasionally, as when Bars are very low, the rule is departed from.

PLATE ROLLING.—The rates quoted are for ordinary work. For more difficult rolling higher prices are paid, but less can be done. They vary with ddlers' wages, being 9*s.* 6*d.* when Puddling is 10*s.* One shearer and his four boys shear for two rollers.

SHEET ROLLING.—Rates vary with Puddlers' wages, being 12*s.* when Puddling is 10*s.* For difficult work higher prices are paid, but less can be done. us, for very thin sheets the rates are much higher than those quoted.

BAR ROLLING.—The prices quoted are for ordinary work. For more difficult rolling higher prices are paid, but less can be done. They vary with ddlers' wages, being 6*s.* when Puddling is 10*s.*

HOOP ROLLING.—The same remarks apply here. When Puddling is 10*s.*, Hoop Rolling is 9*s.* (For Miners' Wages, see p. 258.)

IRON FOUNDRY AND HOLLOW-WARE.—All these workers, except warehouse women and boys, are paid by piece work.

COOPERAGE AND FURNITURE.—These workers are paid by piece-work. They seldom work more than five days a week.

EDGE TOOLS.—All these men, except Labourers, are paid by piece-work. A Tilter has to serve an apprenticeship to his trade, and it requires skill to tilt ; hence the high rate of wages. Tilters are obliged to work regularly, as the tilt-hammer goes by steam power, and they must be at work when the m is on.

* FILES.—All these men are paid by piece-work. The prices for file cutting rose in 1854. This is a very dangerous and unhealthy trade. The grindstones sometimes fly to pieces, and kill or injure the men. The particles of steel and dust get to their lungs. Hence the high rate of wages.

LARGE KEYS.—These workers are paid by the dozen, not by the day.

STOCK LOCKS.—These workmen are paid by the dozen. There are great fluctuations in the prices paid, as they rise and fall with the demand for these locks.

BRASS CABINET LOCKS.—Casters and Locksmiths are paid by piece-work, and their wages consequently vary considerably. A quick and skilful Locksmith can earn 30s., or even more.

BRASS COCKS AND GAS FITTINGS.—Casters and Finishers are paid by piece-work. The men sometimes work only two or three days in the week, sometimes they work over-time.

CABINET BRASS WORK.—Casters and Finishers are paid by piece-work. They pay their own boys, but the earnings set down here are what they receive after paying their boys.

It must be observed that a day's wages to Miners means the pay for a certain stint or measure of coal or stone, varying according to the pits and seams in which they work; and that this stint is always much less than a skilful Miner can do in 12 hours, consequently the wages paid to a good workman for 12 hours' work are always much higher than the prices quoted above.

NOTE BY DUNDEE CHAMBER OF COMMERCE.—Hand-loom Weavers have been earning from 8*s.* to 12*s.* per week, say on an average 10*s.* 6*d.*; but as reported in previous return, hand-loom weaving is gradually being superseded by power-loom weaving. As an instance, it may be mentioned that since the previous return, made to the Board of Trade, several power-loom factories have been erected in Forfar, up to which time all the fabrics made there were woven entirely by hand.

NOTE BY EDINBURGH CHAMBER OF COMMERCE:—

(*a*) Slaters. The hours in winter are shorter, but wages the same as in summer.

(*b*) Painters. About one third of the less skilled and steady workmen are unemployed for nearly four months in winter.

(*c*) This high average is exceeded in some shops, and is caused by combination which prevents employers engaging more than a very limited number of apprentices.

(*d*) Tailors. Cutters are paid very high wages, varying 1*l.* 4*s.* to 5*l.* 5*s.* a week. All the ordinary workmen work by the piece, at rates to yield on an average 24*s.* for a week of 72 hours; but the actual wages vary much according to skill, and for a considerable portion of the year the greater number have not full employment.

(*e*) A closer with 2 boys and a machine may earn 3*l.* to 4*l.* a week.

* On 31st December 1861 this Company had 123 agreements with Railway Companies and with Public Offices for the transmission of their Business Messages. The number of such Messages is not precisely recorded, but is estimated as amounting to three times the number of Messages sent by the general public. This Company had, on the same date, contracts for supplying intelligence to 175 Journals, and to 99 Institutions, but no record is kept of the exact extent of the matter transmitted. It is, however, estimated that this intelligence, in addition to the continental work passing over the Company's Submarine Cables, amounted, at the date referred to, to a total of 756,485 Messages.

† The number of Messages to and from the Continent transmitted jointly by this Company and the Submarine Telegraph Company, and the number of Messages for Railway Companies, Newspapers, and News Rooms, are not included with the Messages for the Public, but are estimated at about 250,000 Messages per annum.

‡ The South-Eastern Railway Company has no working arrangements with either of the Electric Telegraph Companies.

§ Exclusive of private telegraphs provided by this Company for Firms and Persons having two places of business.
